*"Bootstrap Dreams is to my knowledge the most comprehensive study of the microfinance/microenterprise phenomenon in the United States. It situates microenterprise development programs in a broad international history, in domestic political changes, and in a context that emphasizes race, gender, and class. The claims Nancy C. Jurik makes are judicious and well supported by the evidence."*

—Christopher Gunn, Hobart and William Smith Colleges

*"This book tracks the growth of domestic microenterprise development programs. One extremely interesting aspect of this phenomenon is the transfer of economic development strategies first implemented in developing nations to poorer communities in the United States."*
