### Recommended Citation

(2008) "End Matter, Vol. 68 No. 1," *Western North American Naturalist*: Vol. 68 : No. 1 , Article 19.  
Available at: <https://scholarsarchive.byu.edu/wnan/vol68/iss1/19>

This End Matter is brought to you for free and open access by the Western North American Naturalist Publications at BYU ScholarsArchive. It has been accepted for inclusion in Western North American Naturalist by an authorized editor of BYU ScholarsArchive. For more information, please contact [scholarsarchive@byu.edu](mailto:scholarsarchive@byu.edu), [ellen\\_amatangelo@byu.edu](mailto:ellen_amatangelo@byu.edu).

## INFORMATION FOR AUTHORS

The *Western North American Naturalist* welcomes previously unpublished manuscripts pertaining to the biological natural history of western North America, including western Canada and all of Mexico. Preference will be given to concise manuscripts of up to 12,000 words. Simple species lists are discouraged.

**SUBMIT MANUSCRIPTS** online at <https://ojs.lib.byu.edu/ojs/index.php/wnan/information/authors> or send an electronic copy to Mark C. Belk, Editor, *Western North American Naturalist*, [wnan@byu.edu](mailto:wnan@byu.edu), or via mail to 190 MLBM, Brigham Young University, Provo, UT 84602-0200. An accompanying cover letter must include phone number(s) of the author submitting the manuscript, FAX number, and e-mail address; the letter must also provide information describing the extent to which data, text, or illustrations have been used in other papers or books that are published, in press, submitted, or soon to be submitted elsewhere. Authors should adhere to the following guidelines; manuscripts not so prepared may be returned for revision.

**MANUSCRIPT PREPARATION.** In general, the *Western North American Naturalist* follows recommendations in *Scientific Style and Format: The CSE Manual for Authors, Editors, and Publishers*, 7th edition (Rockefeller University Press, New York; Available from: [www.councilscienceeditors.org](http://www.councilscienceeditors.org)). However, we do differ in our treatment of entries in Literature Cited and other minor stylistic matters. Authors should consult the most recent issue of the *Western North American Naturalist* for formatting guidelines.

**TYPE AND DOUBLE SPACE** all materials, including literature cited, tables, and figure legends. Use the word processor's font attributes to indicate italics, superscripts, subscripts, and so forth. Use standard page format (22×28 cm), leaving 2.5-cm margins on all sides.

**SUBMIT A PDF** or word processor document. If submitting by postal mail, send 1 copy of the manuscript with laser-printed or photocopied figures. Number all pages and assemble the document in the following order: title page, abstract and key words, text, acknowledgments, literature cited, appendixes, tables, figure legends, figures.

**TITLE PAGE** includes an informative title no longer than 15 words, names and addresses of authors, a running head of fewer than 40 letters and spaces, footnotes to indicate change of address and author to whom correspondence should be addressed if other than the first author.

**ABSTRACT** states the purpose, methods, results, and conclusions of the research. It is followed by 6–12 key words, listed in order of decreasing importance, to be used for indexing.

**TEXT** has centered main headings printed in all capital letters; 2nd-level headings are centered in

upper- and lowercase letters; 3rd-level headings begin paragraphs.

**VOUCHER SPECIMENS.** Authors are encouraged to designate, properly prepare, label, and deposit high-quality voucher specimens and cultures documenting their research in an established permanent collection, and to cite the repository in publication.

**REFERENCES IN THE TEXT** are cited by author and date: e.g., Martin (1998) or (Martin 1998). Multiple citations should be separated by commas and listed in chronological order. Use “et al.” after name of 1st author for citations having more than 2 authors.

**ACKNOWLEDGMENTS**, under a centered main heading, include special publication numbers when appropriate.

**LITERATURE CITED**, also under a centered main heading, lists references alphabetically in the following formats:

- KONDOLE, G.M. 1997. Hungry water: effects of dams and gravel mining on river channels. *Environmental Management* 21:533–551.
- BRADY, N.C. 1990. The nature and properties of soils. 10th edition. Macmillan, New York.
- TOKESHI, M. 1995. Life cycles and population dynamics. Pages 225–268 in P. Armitage, P.S. Cranston, and L.C.V. Pinder, editors, *The Chironomidae: biology and ecology of non-biting midges*. Chapman and Hall, London.

**TABLES** are double spaced on separate sheets and designed to fit the width of either a single column (6.7 cm) or a page (14.0 cm). Use lowercase letters to indicate footnotes whenever possible.

**FIGURES** are submitted initially with the manuscript; editors may suggest changes. Lettering on figures should be large enough to withstand reduction to 1- or 2-column width. Originals must be no larger than 22×28 cm.

**NOTES.** If the manuscript would be more appropriate as a short communication or note, follow the above instructions but do not include section headings.

**A CHARGE** of \$55 per page is made for articles published; the rate for individual subscribers will be \$40 per page. However, manuscripts with color figures, complex tables, or numerous photographs may be assessed an additional charge. A PDF file of the published article will be provided to the corresponding author.

### FINAL CHECK:

- Cover letter explaining any duplication of information and providing phone number(s), FAX number, and e-mail address
- A PDF file, word processor file, or 1 hard copy of the manuscript
- Conformity with instructions
- Electronic copies or photocopies of illustrations

## CONTENTS

### Articles

- Monitoring Idaho fescue grasslands in the Big Horn Mountains, Wyoming, with a modified Robel pole . . . . . Daniel W. Uresk and Thomas M. Juntti 1
- American Pikas (*Ochotona princeps*) in northwestern Nevada: a newly discovered population at a low-elevation site . . . . . Erik A. Beever, Jennifer L. Wilkening, Donald E. McIvor, Shana S. Weber, and Peter F. Brussard 8
- Effects of water temperature on growth of razorback sucker larvae . . . . . Kevin Bestgen 15
- Late-seasonal activity and diet of the evening bat (*Nycticeius humeralis*) in Nebraska . . . . . Keith Geluso, Jason P. Damm, and Ernest W. Valdez 21
- Winter and early spring bird communities in grasslands, shrubsteppe, and juniper woodlands in central Oregon . . . . . Daniel P. Reinkensmeyer, Richard F. Miller, Robert G. Anthony, Vern E. Marr, and Corinne M. Duncan 25
- Characterization of a contact zone between two subspecies of the big brown bat (*Eptesicus fuscus*) in Nebraska . . . . . Justin D. Hoffman and Hugh H. Genoways 36
- Demography of the Yarrow's spiny lizard, *Sceloporus jarrovi*, from the central Chihuahuan Desert . . . . . Héctor Gadsden and José L. Estrada-Rodríguez 46
- The case for *humboldtensis*: a subspecies name for the indigenous cutthroat trout (*Oncorhynchus clarkii*) of the Humboldt River, Upper Quinn River, and Coyote Basin drainages, Nevada and Oregon . . . . . Patrick C. Trotter and Robert J. Behnke 58
- Strong genetic differentiation among neighboring populations of a locally endemic primrose . . . . . Lee Bjerregaard and Paul G. Wolf 66
- Dynamics of rodent populations in semiarid habitats in Lassen County, California . . . . . Sara C. Gillespie, Dirk H. Van Vuren, Douglas A. Kelt, John M. Eadie, and Daniel W. Anderson 76
- Geographic patterns of ground-dwelling arthropods across an ecoregional transition in the North American Southwest . . . . . David C. Lightfoot, Sandra L. Brantley, and Craig D. Allen 83

### Notes

- Comparison of desert valvata snail growth at three densities of the invasive New Zealand mudsnail . . . . . Steven Lysne and Peter Koetsier 103
- Avian use of desert wildlife water developments as determined by remote videography . . . . . Janet C. Lynn, Steven S. Rosenstock, and Carol L. Chambers 107
- Observations on body mass of prairie dogs in urban habitat . . . . . Seth B. Magle 113
- Spotted bats (*Euderma maculatum*) from Mt. Taylor, New Mexico . . . . . Keith Geluso 119
- Status of the northern rock deer mouse, *Peromyscus nasutus* (Rodentia: Cricetidae), in Utah . . . . . George V. Oliver 123

- Reviewers for 2007 . . . . . 128
