Recommended Citation

(2010) "End Matter, Vol. 70 No. 4," *Western North American Naturalist*: Vol. 70 : No. 4 , Article 24.
Available at: <https://scholarsarchive.byu.edu/wnan/vol70/iss4/24>

This End Matter is brought to you for free and open access by the Western North American Naturalist Publications at BYU ScholarsArchive. It has been accepted for inclusion in Western North American Naturalist by an authorized editor of BYU ScholarsArchive. For more information, please contact scholarsarchive@byu.edu, ellen_amatangelo@byu.edu.

CONTENTS

(Continued from back cover)

Notes

- The banner-tailed kangaroo rat, *Dipodomys spectabilis* (Rodentia: Heteromyidae), in Utah
..... George V. Oliver and Anthony L. Wright **562**
- Note on occurrence of *Mymaromella pala* Huber and Gibson (Hymenoptera: Mymarommatidae)
in Montana: a new state record Timothy D. Hatten, Norm Merz,
James B. 'Ding' Johnson, Chris Looney, Travis Ulrich, Scott Soultz, Roland Capilo,
Dwight Bergeron, Paul Anders, Philip Tanimoto, and Bahman Shafii **567**
- Antipredatory defense of neonatal pronghorn (*Antilocapra americana*) by yearling male
pronghorn in southwestern South Dakota Christopher N. Jacques
and Jonathan A. Jenks **570**
- Pathology of an unusual lumbar condition in a young black bear (*Ursus americanus*) from the
big bend region of Trans-Pecos Texas Frederick B. Stangl Jr., Dana R. Mills,
and Michael W. Haiduk **573**

Book Review

- Urban Carnivores: Ecology, Conflict, and Conservation** by S.D. Gehrt, S.P.D. Riley, and
B.L. Cypher Howard O. Clark Jr. **577**
- Outstanding Natural History Paper of 2008** **579**
- Outstanding Natural History Paper of 2009** **579**

INFORMATION FOR AUTHORS

The *Western North American Naturalist* welcomes previously unpublished manuscripts pertaining to the biological natural history of western North America, including western Canada and all of Mexico. Preference will be given to concise manuscripts of up to 12,000 words. Longer manuscripts will be considered for the monograph series. Simple species lists are discouraged.

SUBMIT MANUSCRIPTS online at <https://ojs.lib.byu.edu/wnan/index.php/wnan/information/authors> or send an electronic copy to Mark C. Belk, Editor, *Western North American Naturalist*, wnan@byu.edu. An accompanying cover letter must provide information describing the extent to which data, text, or illustrations have been used in other papers or books that are published, in press, submitted, or soon to be submitted elsewhere. Authors should adhere to the following guidelines; manuscripts not so prepared may be returned for revision.

MANUSCRIPT PREPARATION. In general, the *Western North American Naturalist* follows recommendations in *Scientific Style and Format: The CSE Manual for Authors, Editors, and Publishers*, 7th edition (Rockefeller University Press, New York; available from: <http://www.councilscienceeditors.org>). However, we do differ in our treatment of entries in literature cited and other minor stylistic matters. Authors should consult the most recent issue of the *Western North American Naturalist* for formatting guidelines.

TYPE AND DOUBLE SPACE all materials, including literature cited, tables, and figure legends. Use the word processor's font attributes to indicate italics, superscripts, subscripts, and so forth. Use standard page format (22 × 28 cm), leaving 2.5-cm margins on all sides.

SUBMIT AN ELECTRONIC DOCUMENT. Number all pages and assemble the document in the following order: title page, abstract and key words, text, acknowledgments, literature cited, appendixes, tables, figure legends, figures.

TITLE PAGE includes an informative title no longer than 15 words; names, addresses, and e-mail addresses of all authors; a running head of fewer than 40 letters and spaces; and notes to indicate changes of address and the author to whom correspondence should be addressed.

ABSTRACT states briefly the purpose, methods, results, and conclusions of the research. Authors are welcome to provide a Spanish translation of their abstract for publication.

TEXT has centered main headings printed in all capital letters; 2nd-level headings are centered in upper- and lowercase letters; 3rd-level headings begin paragraphs.

VOUCHER SPECIMENS. Authors are encouraged to designate, properly prepare, label, and deposit high-quality voucher specimens and cultures documenting

their research in an established permanent collection, and to cite the repository in publication.

REFERENCES IN THE TEXT are cited by author and date: e.g., Martin (1998) or (Martin 1998). Multiple citations should be separated by commas and listed in chronological order. Use "et al." after name of first author for citations having more than 2 authors.

ACKNOWLEDGMENTS, under a centered main heading, include special publication numbers, grant or contract numbers, or protocol numbers when appropriate.

LITERATURE CITED, also under a centered main heading, lists references alphabetically in the following formats:

KONDOLE, G.M. 1997. Hungry water: effects of dams and gravel mining on river channels. *Environmental Management* 21:533–551.

BRADY, N.C. 1990. The nature and properties of soils. 10th edition. Macmillan, New York, NY.

TOKESHI, M. 1995. Life cycles and population dynamics. Pages 225–268 in P. Armitage, P.S. Cranston, and L.C.V. Pinder, editors, *The Chironomidae: biology and ecology of non-biting midges*. Chapman and Hall, London, England.

TABLES are double spaced on separate sheets and designed to fit the width of either a single column (6.7 cm) or a page (14.0 cm). Use lowercase letters to indicate footnotes whenever possible.

FIGURES may be initially embedded in the word processor or PDF file for the reviewers' convenience. However, authors of accepted manuscripts must provide figures in an appropriate file format: EPS, TIF, JPEG, or PDF. Lettering on figures should be large enough to withstand reduction to 1- or 2-column width. Originals must be no larger than 22 × 28 cm. Resolution should be 300 dpi for photographs and up to 1200 dpi for black-and-white line art.

NOTES. If the manuscript would be more appropriate as a short communication or note, follow the above instructions but do not include section headings.

A CHARGE of \$55 per page is made for articles published; the rate if any one of the authors is an individual subscriber will be \$40 per page. However, manuscripts with color figures will be assessed an additional charge of \$300. A PDF file of the published article will be provided to all authors.

FINAL CHECK:

- Cover letter explaining any duplication of information
- Inclusion of addresses and e-mail addresses of all authors on the manuscript's title page
- A word processor or PDF file containing the text, tables, and figure captions.
- Electronic figures in EPS, TIF, JPG, or PDF format.
- Conformity with instructions
