Recommended Citation

(1990) "End Matter, Vol. 50 No. 1," *Great Basin Naturalist*: Vol. 50 : No. 1 , Article 18.

Available at: <https://scholarsarchive.byu.edu/gbn/vol50/iss1/18>

This End Matter is brought to you for free and open access by the Western North American Naturalist Publications at BYU ScholarsArchive. It has been accepted for inclusion in Great Basin Naturalist by an authorized editor of BYU ScholarsArchive. For more information, please contact scholarsarchive@byu.edu, ellen_amatangelo@byu.edu.

REDUCED PRICES
ON
BACK ISSUES

**Great Basin Naturalist and
Great Basin Naturalist Memoirs**

The prices listed below are in effect through December 1990.

GREAT BASIN NATURALIST: regularly \$12 per back issue
The *Great Basin Naturalist* is published quarterly.

Volume 1 (1939) through Volume 34 (1974): \$ 4 per issue or
\$10 per volume

Volume 35 (1975) through Volume 48 (1988): \$ 5 per issue or
\$15 per volume

Complete sets: A few complete sets are available. For information contact James R. Barnes, Editor, (801) 378-5053.

GREAT BASIN NATURALIST MEMOIRS: selected *Memoirs* 50% off the prices listed below.

- No. 1 The birds of Utah. \$10
- No. 2 Intermountain biogeography: a symposium. \$15
- No. 3 The endangered species: a symposium. \$6
- No. 4 Soil-plant-animal relationships bearing on revegetation and land reclamation in Nevada deserts. \$6
- No. 5 Utah Lake monograph. \$8
- No. 6 The bark and ambrosia beetles of North and Central America (Coleoptera: Scolytidae), a taxonomic monograph. \$60
- No. 7 Biology of desert rodents. \$8
- No. 8 The black-footed ferret. \$10
- No. 12 Research in the Auchenorrhyncha, Homoptera: a tribute to Paul W. Oman. \$30

Send orders for back issues to: Editorial Office
Attn: Carolyn Backman
Great Basin Naturalist
290 MLBM
Brigham Young University
Provo, UT 84602 USA

Please include \$2 handling and postage for each *Great Basin Naturalist* volume or *Memoir*.

GREAT BASIN NATURALIST MEMOIRS SERIES

The *Great Basin Naturalist Memoirs* series was established in 1976 for scholarly works in biological natural history of greater length than can be accommodated in the *Great Basin Naturalist*. The *Memoirs* series appears irregularly. Approval for the production is the responsibility of the *Great Basin Naturalist* Editorial Board. Information concerning the production of the *Memoirs* series can be obtained from James R. Barnes, Editor, *Great Basin Naturalist*, 290 MLBM, Brigham Young University, Provo, UT 84602.

GREAT BASIN NATURALIST MEMOIRS

All *Memoirs* are available for purchase. Direct inquiries to: Editorial Office, Attn: Carolyn Backman, 290 MLBM, Brigham Young University, Provo, UT 84602. Only checks or money orders drawn on U.S. banks or U.S. currency are accepted. Please include \$2 per copy for mailing and handling charges.

- No. 1 The birds of Utah. \$10
- No. 2 Intermountain biogeography: a symposium. \$15
- No. 3 The endangered species: a symposium. \$6
- No. 4 Soil-plant-animal relationships bearing on revegetation and land reclamation in Nevada deserts. \$6
- No. 5 Utah Lake monograph. \$8
- No. 6 The bark and ambrosia beetles of North and Central America (Coleoptera: Scolytidae), a taxonomic monograph. \$60
- No. 7 Biology of desert rodents. \$8
- No. 8 The black-footed ferret. \$10
- No. 9 A Utah flora. \$40
- No. 10 A reclassification of the genera of Scolytidae (Coleoptera). \$10
- No. 11 A catalog of Scolytidae and Platypodidae (Coleoptera), part 1: bibliography. \$30
- No. 12 Research in the Auchenorrhyncha, Homoptera: a tribute to Paul W. Oman. \$30

INFORMATION FOR AUTHORS

The *Great Basin Naturalist* welcomes previously unpublished manuscripts pertaining to the biological natural history of western North America. Preference will be given to concise manuscripts of up to 12,000 words.

MANUSCRIPTS SHOULD BE SUBMITTED to James R. Barnes, Editor, *Great Basin Naturalist*, 290 MLBM, Brigham Young University, Provo, Utah 84602. A cover letter accompanying the manuscript must include phone number(s) of the author submitting the manuscript; it must also provide information describing the extent to which data, text, or illustrations have been used in other papers or books that are published, in press, submitted, or soon to be submitted elsewhere. Authors should adhere to the following guidelines; manuscripts not so prepared may be returned for revision.

CONSULT THE MOST RECENT ISSUE of this journal for general style and format. Also refer to the *CBE Style Manual*, 5th edition (Council of Biology Editors, 9650 Rockville Pike, Bethesda, MD 20814 USA; \$24).

TYPE AND DOUBLE SPACE all materials, including literature cited, table headings, and figure legends. Avoid hyphenated words at right-hand margins. Underline words to be printed in italics. Use standard bond (22 × 28 cm), leaving 2.5-cm margins on all sides.

SUBMIT 3 COPIES of the manuscript. Number all pages and assemble each copy separately: title page, abstract and key words, text, acknowledgments, literature cited, appendices, tables, figure legends, figures.

TITLE PAGE includes an informative title no longer than 15 words, names and addresses of authors, a running head of fewer than 40 letters and spaces, footnotes to indicate change of address and author to whom correspondence should be addressed if other than the first author.

ABSTRACT states the purpose, methods, results, and conclusions of the research. It is followed by 6–12 key words, listed in order of decreasing importance, to be used for indexing.

TEXT has centered main headings printed in all capital letters; second-level headings are centered in upper- and lower-case letters; third-level headings begin paragraphs.

VOUCHER SPECIMENS. Authors are encouraged to designate, properly prepare, label, and deposit high-quality voucher specimens and cultures documenting their research in an established permanent collection, and to cite the repository in publication.

REFERENCES IN THE TEXT are cited by author and date: e.g., Martin (1989) or (Martin 1989). Multiple citations should be separated by commas and listed in chronological order. Use “et al.” after name of first author for citations having more than two authors.

ACKNOWLEDGMENTS, under a centered main heading, include special publication numbers when appropriate.

LITERATURE CITED, also under a centered main heading, lists references alphabetically in the following formats:

Mack, G. D., and L. D. Flake. 1980. Habitat relationships of waterfowl broods on South Dakota stock ponds. *Journal of Wildlife Management* 44: 695–700.

Sousa, W. P. 1985. Disturbance and patch dynamics on rocky intertidal shores. Pages 101–124 in S. T. A. Pickett and P. S. White, eds., *The ecology of natural disturbance and patch dynamics*. Academic Press, New York.

Coulson, R. N., and J. A. Witter. 1984. *Forest entomology: ecology and management*. John Wiley and Sons, Inc., New York. 669 pp.

TABLES are double spaced on separate sheets and designed to fit the width of either a single column or a page. Use lower-case letters to indicate footnotes.

PHOTOCOPIES OF FIGURES are submitted initially with the manuscript; editors may suggest changes. Lettering on figures should be large enough to withstand reduction to one- or two-column width. Originals must be no larger than 22 × 28 cm.

NOTES. If your manuscript would be more appropriate as a short communication or note, follow the above instructions but do not include an abstract.

A CHARGE of \$45 per page is made for articles published; the rate for subscribers will be \$40 per page. However, manuscripts with complex tables and/or numerous half-tones will be assessed an additional charge. Reprints may be purchased at the time of publication (an order form is sent with the proofs).

FINAL CHECK:

- Cover letter explains any duplication of information and provides phone number(s)
- 3 copies of the manuscript
- Conformity with instructions
- Photocopies of illustrations

CONTENTS

Articles

- A plasma protein marker for population genetic studies of the desert tortoise (*Xerobates agassizi*) James L. Glenn, Richard C. Straight, and Jack W. Sites, Jr. 1
- Effects of nitrogen availability on growth and photosynthesis of *Artemisia tridentata* ssp. *wyomingensis* Paul S. Doescher, Richard F. Miller, Jianguo Wang, and Jeff Rose 9
- Form and dispersion of Mima mounds in relation to slope steepness and aspect on the Columbia Plateau George W. Cox 21
- Esox lucius* (Esocidae) and *Stizostedion vitreum* (Percidae) in the Green River basin, Colorado and Utah Harold M. Tyus and James M. Beard 33
- Influence of soil frost on infiltration of shrub coppice dune and dune interspace soils in southeastern Nevada Wilbert H. Blackburn and M. Karl Wood 41
- Seed production and seedling establishment of a Southwest riparian tree, Arizona walnut (*Juglans major*) Juliet C. Stromberg and Duncan T. Patten 47
- Forage quality of rillscale (*Atriplex suckleyi*) grown on amended bentonite mine spoil Marguerite E. Voorhees 57
- Summer food habits of coyotes in Idaho's River of No Return Wilderness Area Charles L. Elliott and Richard Guetig 63
- Infection of young Douglas-firs by dwarf mistletoe in the Southwest Robert L. Mathiasen, Carleton B. Edminster, and Frank G. Hawksworth 67
- New Mexico grass types and a selected bibliography of New Mexico grass taxonomy Kelly W. Allred 73

Notes

- Noteworthy mammal distribution records for the Nevada Test Site . . . Philip A. Medica 83
- Formation of *Pisolithus tinctorius* ectomycorrhizae on California white fir in an eastern Sierra Nevada minesoil R. F. Walker 85
- Bone chewing by Rocky Mountain bighorn sheep K. A. Keating 89
- Distribution of limber pine dwarf mistletoe in Nevada Robert L. Mathiasen and Frank G. Hawksworth 91
- Sorex preblei* in the northern Great Basin Mark A. Ports and Sarah B. George 93
