Recommended Citation

(1991) "End Matter, Vol. 51 No. 1," *Great Basin Naturalist*: Vol. 51 : No. 1 , Article 2.

Available at: <https://scholarsarchive.byu.edu/gbn/vol51/iss1/2>

This End Matter is brought to you for free and open access by the Western North American Naturalist Publications at BYU ScholarsArchive. It has been accepted for inclusion in Great Basin Naturalist by an authorized editor of BYU ScholarsArchive. For more information, please contact scholarsarchive@byu.edu, ellen_amatangelo@byu.edu.

[The page contains extremely faint, illegible text, likely bleed-through from the reverse side of the document. The text is arranged in two columns and appears to be a list or index of items.]

GREAT BASIN NATURALIST MEMOIRS SERIES

The *Great Basin Naturalist Memoirs* series was established in 1976 for scholarly works in biological natural history of greater length than can be accommodated in the *Great Basin Naturalist*. The *Memoirs* series appears irregularly. Approval for the production is the responsibility of the *Great Basin Naturalist* Editorial Board. Information concerning the production of the *Memoirs* series can be obtained from James R. Barnes, Editor, *Great Basin Naturalist*, 290 MLBM, Brigham Young University, Provo, UT 84602.

GREAT BASIN NATURALIST MEMOIRS

All *Memoirs* are available for purchase. Direct inquiries to: Editorial Office, 290 MLBM, Brigham Young University, Provo, UT 84602. Only U.S. currency or checks or money orders drawn on U.S. banks are accepted. These should be made out to *Great Basin Naturalist*. Please include \$3 per copy for mailing and handling charges except for Nos. 6 and 11. The charge for these volumes is \$5 per copy.

- No. 1 The birds of Utah. \$15
- No. 2 Intermountain biogeography: a symposium. \$20
- No. 3 The endangered species: a symposium. \$15
- No. 4 Soil-plant-animal relationships bearing on revegetation and land reclamation in Nevada deserts. \$15
- No. 5 Utah Lake monograph. \$15
- No. 6 The bark and ambrosia beetles of North and Central America (Coleoptera: Scolytidae), a taxonomic monograph. \$60
- No. 7 Biology of desert rodents. \$15
- No. 8 The black-footed ferret. \$20
- No. 9 A Utah flora. \$40
- No. 10 A reclassification of the genera of Scolytidae (Coleoptera). \$20
- No. 11 A catalog of Scolytidae and Platypodidae (Coleoptera), part I: bibliography. \$50
- No. 12 Research in the Auchenorrhyncha, Homoptera: a tribute to Paul W. Oman. \$30

INFORMATION FOR AUTHORS

The *Great Basin Naturalist* welcomes previously unpublished manuscripts pertaining to the biological natural history of western North America. Preference will be given to concise manuscripts of up to 12,000 words.

SUBMIT MANUSCRIPTS to James R. Barnes, Editor, *Great Basin Naturalist*, 290 MLBM, Brigham Young University, Provo, Utah 84602. A cover letter accompanying the manuscript must include phone number(s) of the author submitting the manuscript; it must also provide information describing the extent to which data, text, or illustrations have been used in other papers or books that are published, in press, submitted, or soon to be submitted elsewhere. Authors should adhere to the following guidelines; manuscripts not so prepared may be returned for revision.

MANUSCRIPT PREPARATION. Consult Vol. 51, No. 2 of this journal for specific instructions on style and format. These instructions, **GUIDELINES FOR MANUSCRIPTS SUBMITTED TO THE GREAT BASIN NATURALIST**, supply greater detail than those presented here in condensed form. The guidelines are printed at the back of the issue; additional copies are available from the editor upon request. Also, check the most recent issue of the *Great Basin Naturalist* for changes and refer to the *CBE Style Manual*, 5th edition (Council of Biology Editors, Suite 1200, 230 N. Michigan Avenue, Chicago, IL 60601-5961 USA; \$24).

TYPE AND DOUBLE SPACE all materials, including literature cited, table headings, and figure legends. Avoid hyphenated words at right-hand margins. Underline words to be printed in italics. Use standard bond (22 × 28 cm), leaving 2.5-cm margins on all sides.

SUBMIT 3 COPIES of the manuscript. Number all pages and assemble each copy separately: title page, abstract and key words, text, acknowledgments, literature cited, appendices, tables, figure legends, figures.

TITLE PAGE includes an informative title no longer than 15 words, names and addresses of authors, a running head of fewer than 40 letters and spaces, footnotes to indicate change of address and author to whom correspondence should be addressed if other than the first author.

ABSTRACT states the purpose, methods, results, and conclusions of the research. It is followed by 6–12 key words, listed in order of decreasing importance, to be used for indexing.

TEXT has centered main headings printed in all capital letters; second-level headings are centered in upper- and lowercase letters; third-level headings begin paragraphs.

VOUCHER SPECIMENS. Authors are encouraged to designate, properly prepare, label, and deposit high-quality voucher specimens and cultures documenting their research in an established permanent collection, and to cite the repository in publication.

REFERENCES IN THE TEXT are cited by author and date: e.g., Martin (1989) or (Martin 1989). Multiple citations should be separated by commas and listed in chronological order. Use "et al." after name of first author for citations having more than two authors.

ACKNOWLEDGMENTS, under a centered main heading, include special publication numbers when appropriate.

LITERATURE CITED, also under a centered main heading, lists references alphabetically in the following formats:

Mack, G. D., and L. D. Flake. 1980. Habitat relationships of waterfowl broods on South Dakota stock ponds. *Journal of Wildlife Management* 44: 695–700.

Sousa, W. P. 1985. Disturbance and patch dynamics on rocky intertidal shores. Pages 101–124 in S. T. A. Pickett and P. S. White, eds., *The ecology of natural disturbance and patch dynamics*. Academic Press, New York.

Coulson, R. N., and J. A. Witter. 1984. *Forest entomology: ecology and management*. John Wiley and Sons, Inc., New York. 669 pp.

TABLES are double spaced on separate sheets and designed to fit the width of either a single column or a page. Use lowercase letters to indicate footnotes.

PHOTOCOPIES OF FIGURES are submitted initially with the manuscript; editors may suggest changes. Lettering on figures should be large enough to withstand reduction to one- or two-column width. Originals must be no larger than 22 × 28 cm.

NOTES. If your manuscript would be more appropriate as a short communication or note, follow the above instructions but do not include an abstract.

A CHARGE of \$45 per page is made for articles published; the rate for subscribers will be \$40 per page. However, manuscripts with complex tables and/or numerous half-tones will be assessed an additional charge. Reprints may be purchased at the time of publication (an order form is sent with the proofs).

FINAL CHECK:

- Cover letter explains any duplication of information and provides phone number(s)
- 3 copies of the manuscript
- Conformity with instructions
- Photocopies of illustrations
