Recommended Citation

(1992) "End Matter, Vol. 52 No. 2," *Great Basin Naturalist*: Vol. 52 : No. 2 , Article 16.
Available at: <https://scholarsarchive.byu.edu/gbn/vol52/iss2/16>

This End Matter is brought to you for free and open access by the Western North American Naturalist Publications at BYU ScholarsArchive. It has been accepted for inclusion in *Great Basin Naturalist* by an authorized editor of BYU ScholarsArchive. For more information, please contact scholarsarchive@byu.edu, ellen_amatangelo@byu.edu.

INFORMATION FOR AUTHORS

The *Great Basin Naturalist* welcomes previously unpublished manuscripts pertaining to the biological natural history of western North America. Preference will be given to concise manuscripts of up to 12,000 words.

SUBMIT MANUSCRIPTS to James R. Barnes, Editor, *Great Basin Naturalist*, 290 MLBM, Brigham Young University, Provo, Utah 84602. A cover letter accompanying the manuscript must include phone number(s) of the author submitting the manuscript; it must also provide information describing the extent to which data, text, or illustrations have been used in other papers or books that are published, in press, submitted, or soon to be submitted elsewhere. Authors should adhere to the following guidelines; manuscripts not so prepared may be returned for revision.

MANUSCRIPT PREPARATION. Consult Vol. 51, No. 2 of this journal for specific instructions on style and format. These instructions, GUIDELINES FOR MANUSCRIPTS SUBMITTED TO THE GREAT BASIN NATURALIST, supply greater detail than those presented here in condensed form. The guidelines are printed at the back of the issue; additional copies are available from the editor upon request. Also, check the most recent issue of the *Great Basin Naturalist* for changes and refer to the *CBE Style Manual*, 5th edition (Council of Biology Editors, One Illinois Center, Suite 200, 111 East Wacker Drive, Chicago, IL 60601-4298 USA, PHONE: (312) 616-0800, FAX: (312) 616-0226; \$24).

TYPE AND DOUBLE SPACE all materials, including literature cited, table headings, and figure legends. Avoid hyphenated words at right-hand margins. Underline words to be printed in italics. Use standard bond (22 × 28 cm), leaving 2.5-cm margins on all sides.

SUBMIT 3 COPIES of the manuscript and the original on a 5.25- or 3.5-inch disk utilizing WordPerfect 4.2 or above. Number all pages and assemble each copy separately: title page, abstract and key words, text, acknowledgments, literature cited, appendices, tables, figure legends, figures.

TITLE PAGE includes an informative title no longer than 15 words, names and addresses of authors, a running head of fewer than 40 letters and spaces, footnotes to indicate change of address and author to whom correspondence should be addressed if other than the first author.

ABSTRACT states the purpose, methods, results, and conclusions of the research. It is followed by 6–12 key words, listed in order of decreasing importance, to be used for indexing.

TEXT has centered main headings printed in all capital letters; second-level headings are centered in upper- and lowercase letters; third-level headings begin paragraphs.

VOUCHER SPECIMENS. Authors are encouraged to designate, properly prepare, label, and deposit high-quality voucher specimens and cultures documenting their research in an established permanent collection, and to cite the repository in publication.

REFERENCES IN THE TEXT are cited by author and date: e.g., Martin (1989) or (Martin 1989). Multiple citations should be separated by commas and listed in chronological order. Use “et al.” after name of first author for citations having more than two authors.

ACKNOWLEDGMENTS, under a centered main heading, include special publication numbers when appropriate.

LITERATURE CITED, also under a centered main heading, lists references alphabetically in the following formats:

Maek, G. D., and L. D. Flake. 1980. Habitat relationships of waterfowl broods on South Dakota stock ponds. *Journal of Wildlife Management* 44: 695–700.

Sousa, W. P. 1985. Disturbance and patch dynamics on rocky intertidal shores. Pages 101–124 in S. T. A. Pickett and P. S. White, eds., *The ecology of natural disturbance and patch dynamics*. Academic Press, New York.

Coulson, R. N., and J. A. Witter. 1984. *Forest entomology: ecology and management*. John Wiley and Sons, Inc., New York. 669 pp.

TABLES are double spaced on separate sheets and designed to fit the width of either a single column or a page. Use lowercase letters to indicate footnotes.

PHOTOCOPIES OF FIGURES are submitted initially with the manuscript; editors may suggest changes. Lettering on figures should be large enough to withstand reduction to one- or two-column width. Originals must be no larger than 22 × 28 cm.

NOTES. If the manuscript would be more appropriate as a short communication or note, follow the above instructions but do not include an abstract.

A CHARGE of \$45 per page is made for articles published; the rate for subscribers will be \$40 per page. However, manuscripts with complex tables and/or numerous half-tones will be assessed an additional charge. Reprints may be purchased at the time of publication (an order form is sent with the proofs).

FINAL CHECK:

- Cover letter explains any duplication of information and provides phone number(s)
- 3 copies of the manuscript and WordPerfect disk
- Conformity with instructions
- Photocopies of illustrations

CONTENTS**Articles**

- Red Butte Canyon Research Natural Area: history, flora, geology, climate, and ecology..... James R. Ehleringer, Lois A. Arnow, Ted Arnow, Irving R. McNulty, and Norman C. Negus **95**
- Influences of sex and weather on migration of mule deer in California..... Thomas E. Kucera **122**
- Diatom flora of Beaver Dam Creek, Washington County, Utah, USA..... Kurtis H. Yearsley, Samuel R. Rushforth, and Jeffrey R. Johansen **131**
- Stratification of habitats for identifying habitat selection by Merriam's Turkeys..... Mark A. Rumble and Stanley H. Anderson **139**
- Pollinator preferences for yellow, orange, and red flowers of *Mimulus verbenaceus* and *M. cardinalis*..... Paul K. Vickery, Jr. **145**
- Soil loosening processes following the abandonment of two arid western Nevada townsites..... Paul A. Knapp **149**
- Biochemical differentiation in the Idaho ground squirrel, *Spermophilus brunneus* (Rodentia: Scuridae)..... Ayesha E. Gill and Eric Yensen **155**
- New genus, *Aplanusiella*, and two new species of leafhoppers from southwestern United States (Homoptera: Cicadellidae: Deltocephalinae)..... M. W. Nielson and B. A. Haws **160**
- Summer habitat use by Columbian Sharp-tailed Grouse in western Idaho... Victoria Ann Saab and Jeffrey Shaw Marks **166**

Notes

- Characteristics of sites occupied by subspecies of *Artemisia tridentata* in the Piceance Basin, Colorado.. Thomas R. Cottrell and Charles D. Bonham **174**
- Use of lakes and reservoirs by migrating shorebirds in Idaho..... Daniel M. Taylor and Charles H. Trost **179**
- Dispersal of squarrose knapweed (*Centaurea virgata* ssp. *squarrosa*) capitula by sheep on rangeland in Juab County, Utah..... Cindy Talbott Roché, Ben F. Roché, Jr., and G. Allen Rasmussen **185**
- Vegetation associated with two alien plant species in a fescue grassland in Glacier National Park, Montana..... Robin W. Tyser **189**
