### Recommended Citation

(1994) "End Matter, Vol. 54 No. 3," *Great Basin Naturalist*: Vol. 54 : No. 3 , Article 12.

Available at: <https://scholarsarchive.byu.edu/gbn/vol54/iss3/12>

This End Matter is brought to you for free and open access by the Western North American Naturalist Publications at BYU ScholarsArchive. It has been accepted for inclusion in *Great Basin Naturalist* by an authorized editor of BYU ScholarsArchive. For more information, please contact [scholarsarchive@byu.edu](mailto:scholarsarchive@byu.edu), [ellen\\_amatangelo@byu.edu](mailto:ellen_amatangelo@byu.edu).

THE SHRUB RESEARCH CONSORTIUM  
in concert with  
NEW MEXICO STATE UNIVERSITY

is sponsoring the Ninth Wildland Shrub Symposium, May 23–25, 1995, at the Hilton Hotel in Las Cruces, New Mexico. The symposium theme is "Shrubland Ecosystem Dynamics in a Changing Environment." Included in the symposium is a mid-symposium field trip to the Jornada Experimental Range/Long-term Ecological Site.

Contributed papers are invited and will be published by the USDA Forest Service, Intermountain Research Station, as part of the proceedings. If you would like to present a paper, send a title and abstract by September 15, 1994, to Dr. Jerry Barrow, Jornada Experimental Range, Box 30003, Dept. 3JER, New Mexico State University, Las Cruces, New Mexico 88003-8003.

To obtain registration materials and information, please contact Katie Dunford, Office of Conference Services, Box 30004, Dept. CCSU, New Mexico State University, Las Cruces, New Mexico 88003-8004.

## INFORMATION FOR AUTHORS

The *Great Basin Naturalist* welcomes previously unpublished manuscripts pertaining to the biological natural history of western North America. Preference will be given to concise manuscripts of up to 12,000 words. Simple species lists are discouraged.

**SUBMIT MANUSCRIPTS** to Richard W. Baumann, Editor, *Great Basin Naturalist*, 290 MLBM, PO Box 20200, Brigham Young University, Provo, UT 84602-0200. A cover letter accompanying the manuscript must include phone number(s) of the author submitting the manuscript, and FAX number and E-mail address when applicable; the letter must also provide information describing the extent to which data, text, or illustrations have been used in other papers or books that are published, in press, submitted, or soon to be submitted elsewhere. Authors should adhere to the following guidelines; manuscripts not so prepared may be returned for revision.

**MANUSCRIPT PREPARATION.** Consult Vol. 51, No. 2 of this journal for specific instructions on style and format. These instructions, GUIDELINES FOR MANUSCRIPTS SUBMITTED TO THE GREAT BASIN NATURALIST, supply greater detail than those presented here in condensed form. The guidelines are printed at the back of the issue; additional copies are available from the editor upon request. Also, check the most recent issue of the *Great Basin Naturalist* for changes and refer to the *CBE Style Manual*, 5th edition (Council of Biology Editors, One Illinois Center, Suite 200, 111 East Wacker Drive, Chicago, IL 60601-4298 USA, PHONE: (312) 616-0800, FAX: (312) 616-0226; \$24).

**TYPE AND DOUBLE SPACE** all materials, including literature cited, table headings, and figure legends. Avoid hyphenated words at the right-hand margins. Underline words to be printed in italics. Use standard bond (22×28 cm), leaving 2.5-cm margins on all sides.

**SUBMIT 3 COPIES** of the manuscript and the original on a 5.25- or 3.5-inch disk utilizing WordPerfect 4.2 or above. Number all pages and assemble each copy separately: title page, abstract and key words, text, acknowledgments, literature cited, appendices, tables, figure legends, figures.

**TITLE PAGE** includes an informative title no longer than 15 words, names and addresses of authors, a running head of fewer than 40 letters and spaces, footnotes to indicate change of address and author to whom correspondence should be addressed if other than the first author.

**ABSTRACT** states the purpose, methods, results, and conclusions of the research. It is followed by 6–12 key words, listed in order of decreasing importance, to be used for indexing.

**TEXT** has centered main headings printed in all capital letters; second-level headings are centered in upper- and lowercase letters; third-level headings begin paragraphs.

**VOUCHER SPECIMENS.** Authors are encouraged to designate, properly prepare, label, and deposit high-quality voucher specimens and cultures documenting their research in an established permanent collection, and to cite the repository in publication.

**REFERENCES IN THE TEXT** are cited by author and date: e.g., Martin (1989) or (Martin 1989). Multiple citations should be separated by commas and listed in chronological order. Use “et al.” after name of first author for citations having more than two authors.

**ACKNOWLEDGMENTS**, under a centered main heading, include special publication numbers when appropriate.

**LITERATURE CITED**, also under a centered main heading, lists references alphabetically in the following formats:

Mack, G. D., and L. D. Flake. 1980. Habitat relationships of waterfowl broods on South Dakota stock ponds. *Journal of Wildlife Management* 44: 695–700.

Sousa, W. P. 1985. Disturbance and patch dynamics on rocky intertidal shores. Pages 101–124 in S. T. A. Pickett and P. S. White, eds., *The ecology of natural disturbance and patch dynamics*. Academic Press, New York.

Coulson, R. N., and J. A. Witter. 1984. *Forest entomology: ecology and management*. John Wiley and Sons, Inc., New York. 669 pp.

**TABLES** are double spaced on separate sheets and designed to fit the width of either a single column or a page. Use lowercase letters to indicate footnotes.

**PHOTOCOPIES OF FIGURES** are submitted initially with the manuscript; editors may suggest changes. Lettering on figures should be large enough to withstand reduction to one- or two-column width. Originals must be no larger than 22×28 cm.

**NOTES.** If the manuscript would be more appropriate as a short communication or note, follow the above instructions but do not include an abstract.

**A CHARGE** of \$50 per page is made for articles published; the rate for individual subscribers will be \$35 per page. However, manuscripts with complex tables and/or numerous half-tones will be assessed an additional charge. Reprints may be purchased at the time of publication (an order form is sent with the proofs).

### FINAL CHECK:

- Cover letter explaining any duplication of information and providing phone number(s), FAX number, and E-mail address
- 3 copies of the manuscript and WordPerfect diskette
- Conformity with instructions
- Photocopies of illustrations

## CONTENTS

### Articles

- Habitat requirements for *Erigeron kachinensis*, a rare endemic of the Colorado Plateau ..... Loreen Allphin and Kimball T. Harper **193**
- Coordination of branch orientation and photosynthetic physiology in the Joshua tree (*Yucca brevifolia*) ..... Kaylie E. Rasmuson, Jay E. Anderson, and Nancy Huntly **204**
- Variance and replenishment of nectar in wild and greenhouse populations of *Mimulus* ..... Robert K. Vickery, Jr., and Steven D. Sutherland **212**
- Nesting and summer habitat use by translocated Sage Grouse (*Centrocercus urophasianus*) in central Idaho ..... David D. Musil, Kerry P. Reese, and John W. Connelly **228**
- Vegetation zones and soil characteristics in vernal pools in the Channeled Scabland of eastern Washington ..... Elizabeth A. Crowe, Alan J. Busacca, John P. Reganold, and Benjamin A. Zamora **234**
- Golden Eagle (*Aquila chrysaetos*) population ecology in eastern Utah ..... J. William Bates and Miles O. Moretti **248**
- Identification of *Purshia subintegra* (Rosaceae) ..... Frank W. Reichenbacher **256**
- Observations on Double-crested Cormorants (*Phalacrocorax auritus*) at sport-fishing waters in southwestern Utah ..... Michael J. Ottenbacher, Dale K. Hepworth, and Louis N. Berg **272**

### Notes

- New mammal record for Fremont Island with an updated checklist of mammals on islands in the Great Salt Lake ..... Kenneth L. Cramer **287**
