

WHERE THERE ARE NO JOBS

Help the world's poor to become more economically self-reliant by using these handbooks to teach basic microenterprise principles. The *Where There Are No Jobs* handbooks are being used in more than a dozen countries, and have helped nearly 1,000 international students experience business success.

*We began using the Spanish version of **Where There Are No Jobs** in 2005. Some of our 75 small business owners have already doubled or tripled their businesses.*
