Recommended Citation

(1996) "End Matter, Vol. 56 No. 1," *Great Basin Naturalist*: Vol. 56 : No. 1 , Article 16.
Available at: <https://scholarsarchive.byu.edu/gbn/vol56/iss1/16>

This End Matter is brought to you for free and open access by the Western North American Naturalist Publications at BYU ScholarsArchive. It has been accepted for inclusion in Great Basin Naturalist by an authorized editor of BYU ScholarsArchive. For more information, please contact scholarsarchive@byu.edu, ellen_amatangelo@byu.edu.

INFORMATION FOR AUTHORS

The *Great Basin Naturalist* welcomes previously unpublished manuscripts pertaining to the biological natural history of western North America. Preference will be given to concise manuscripts of up to 12,000 words. Simple species lists are discouraged.

SUBMIT MANUSCRIPTS to Richard W. Baumann, Editor, *Great Basin Naturalist*, 290 MLBM, PO Box 20200, Brigham Young University, Provo, UT 84602-0200. A cover letter accompanying the manuscript must include phone number(s) of the author submitting the manuscript, and FAX number and E-mail address when applicable; the letter must also provide information describing the extent to which data, text, or illustrations have been used in other papers or books that are published, in press, submitted, or soon to be submitted elsewhere. Authors should adhere to the following guidelines; manuscripts not so prepared may be returned for revision.

MANUSCRIPT PREPARATION. In general, the *Great Basin Naturalist* follows recommendations in *Scientific Style and Format: The CBE Manual for Authors, Editors, and Publishers*, 6th edition (Council of Biology Editors, Inc., 11 South LaSalle Street, Suite 1400, Chicago, IL 60603, USA; PHONE 312-201-0101; FAX 312-201-0214). We do, however, differ in our treatment of entries in Literature Cited. Authors may consult Vol. 51, No. 2 of this journal for specific instructions on format; these instructions, GUIDELINES FOR MANUSCRIPTS SUBMITTED TO THE GREAT BASIN NATURALIST, are printed at the back of the issue. Also, check the most recent issue of the *Great Basin Naturalist* for changes.

TYPE AND DOUBLE SPACE all materials, including literature cited, table headings, and figure legends. Avoid hyphenated words at the right-hand margins. Underline words to be printed in italics. Use standard bond (22×28 cm), leaving 2.5-cm margins on all sides.

SUBMIT 3 COPIES of the manuscript and the original on a 5.25- or 3.5-inch disk utilizing WordPerfect 5.1 or above. Number all pages and assemble each copy separately: title page, abstract and key words, text, acknowledgments, literature cited, appendices, tables, figure legends, figures.

TITLE PAGE includes an informative title no longer than 15 words, names and addresses of authors, a running head of fewer than 40 letters and spaces, footnotes to indicate change of address and author to whom correspondence should be addressed if other than the first author.

ABSTRACT states the purpose, methods, results, and conclusions of the research. It is followed by 6–12 key words, listed in order of decreasing importance, to be used for indexing.

TEXT has centered main headings printed in all capital letters; second-level headings are centered in upper- and lowercase letters; third-level headings begin in paragraphs.

VOUCHER SPECIMENS. Authors are encouraged to designate, properly prepare, label, and deposit high-quality voucher specimens and cultures documenting their research in an established permanent collection, and to cite the repository in publication.

REFERENCES IN THE TEXT are cited by author and date: e.g., Martin (1989) or (Martin 1989). Multiple citations should be separated by commas and listed in chronological order. Use “et al.” after name of first author for citations having more than two authors.

ACKNOWLEDGMENTS, under a centered main heading, include special publication numbers when appropriate.

LITERATURE CITED, also under a centered main heading, lists references alphabetically in the following formats:

Mack, G. D., and L. D. Flake. 1980. Habitat relationships of waterfowl broods on South Dakota stock ponds. *Journal of Wildlife Management* 44: 695–700.

Sousa, W. P. 1985. Disturbance and patch dynamics on rocky intertidal shores. Pages 101–124 in S. T. A. Pickett and P. S. White, eds., *The ecology of natural disturbance and patch dynamics*. Academic Press, New York.

Coulson, R. N., and J. A. Witter. 1984. *Forest entomology: ecology and management*. John Wiley and Sons, Inc., New York. 669 pp.

TABLES are double spaced on separate sheets and designed to fit the width of either a single column or a page. Use lowercase letters to indicate footnotes.

PHOTOCOPIES OF FIGURES are submitted initially with the manuscript; editors may suggest changes. Lettering on figures should be large enough to withstand reduction to one- or two-column width. Originals must be no larger than 22×28 cm.

NOTES. If the manuscript would be more appropriate as a short communication or note, follow the above instructions but do not include an abstract.

A CHARGE of \$50 per page is made for articles published; the rate for individual subscribers will be \$35 per page. However, manuscripts with complex tables and/or numerous half-tones will be assessed an additional charge. Reprints may be purchased at the time of publication (an order form is sent with the proofs).

FINAL CHECK:

- Cover letter explaining any duplication of information and providing phone number(s), FAX number, and E-mail address
- 3 copies of the manuscript and WordPerfect diskette
- Conformity with instructions
- Photocopies of illustrations

CONTENTS**Articles**

- Temporal and spatial distribution of highway mortality of mule deer on newly constructed roads at Jordanelle Reservoir, Utah Laura A. Romin
and John A. Bissonette **1**
- Exceptional fish yield in a mid-elevation Utah trout reservoir: effects of angling regulations Wayne A. Wurtsbaugh, David Barnard,
and Thomas Pettengill **12**
- Consumption of diffuse knapweed by two species of polyphagous grasshoppers (Orthoptera: Acrididae) in southern Idaho Dennis J. Fielding,
M. A. Brusven, and L. P. Kish **22**
- Fire frequency and the vegetative mosaic of a spruce-fir forest in northern Utah Linda Wadleigh and Michael J. Jenkins **28**
- Arizona distribution of three Sonoran Desert anurans: *Bufo retiformis*, *Gastrophryne olivacea*, and *Pternohyla fodiens* Brian K. Sullivan,
Robert W. Bowker, Keith B. Malmos, and Erik W. A. Gergus **38**
- Habitat affinities of bats from northeastern Nevada Mark A. Ports
and Peter V. Bradley **48**
- Nuptial, pre, and postnuptial activity of the thatching ant, *Formica obscuripes* Forel, in Colorado John R. Conway **54**
- Trachytes kaliszewskii* n. sp. (Acari: Uropodina) from the Great Basin (Utah, USA), with remarks on the habitats and distribution of the members of the genus *Trachytes* Jerzy Błoszyk and Paweł Szymkowiak **59**
- Productivity, food habits, and associated variables of Barn Owls utilizing nest boxes in north central Utah Sandra J. Looman, Dennis L. Shirley,
and Clayton M. White **73**

Notes

- Astragalus laxmannii* Jacquin (Leguminosae) in North America R. C. Barneby and S. L. Welsh **85**
- Intermountain movement by Mexican Spotted Owls (*Strix occidentalis lucida*) R. J. Gutiérrez, Mark E. Seamans, and M. Zachariah Peery **87**
- Limber pine and bears Henry E. McCutchen **90**
