Recommended Citation

(1999) "End Matter, Vol. 59 No. 4," *Great Basin Naturalist*: Vol. 59 : No. 4 , Article 17.
Available at: <https://scholarsarchive.byu.edu/gbn/vol59/iss4/17>

This End Matter is brought to you for free and open access by the Western North American Naturalist Publications at BYU ScholarsArchive. It has been accepted for inclusion in *Great Basin Naturalist* by an authorized editor of BYU ScholarsArchive. For more information, please contact scholarsarchive@byu.edu, ellen_amatangelo@byu.edu.

The
GREAT BASIN NATURALIST
290 M.L. BEAN MUSEUM
BRIGHAM YOUNG UNIVERSITY
PROVO, UT 84602-0200

*is pleased to offer special reduced prices
on all back issues of the journal
and all volumes in the GREAT BASIN NATURALIST MEMOIRS series*

Effective through the year 2000, single copies of back issues of the GREAT BASIN NATURALIST published between 1975 and 1999 will sell for **\$5 each** (regular price \$12). Complete volumes (4 issues) are **\$15**.

Earlier issues will sell for **\$4 each** (some issues are no longer available). Complete volumes are **\$12**. Postage is included in all cases.

In addition, complimentary copies of the 50-Year Index (published 1991) are available for a nominal **\$1** shipping/handling charge.

The following prices are in effect for GREAT BASIN NATURALIST MEMOIRS (postage is included):

No. 1	The Birds of Utah (1976)	\$5
No. 2	Intermountain biogeography: a symposium (1978)	\$7
No. 3	The endangered species: a symposium (1979)	\$7
No. 4	Soil-plant-animal relationships bearing on revegetation and land reclamation in the Nevada desert (1980)	\$7
No. 5	Utah Lake monograph (1981)	\$5
No. 6	The bark and ambrosia beetles of North and Central America (Coleoptera: Scolytidae): a taxonomic monograph (1982)	\$30
No. 7	Biology of desert rodents (1983)	\$9
No. 8	The black-footed ferret (1986)	\$12
No. 10	A reclassification of the genera of Scolytidae (Coleoptera) (1986)	\$6
No. 11	A catalog of Scolytidae and Platypodidae (Coleoptera), part 1: bibliography (1987)	\$20
No. 12	Research in the Auchenorrhyncha, Homoptera: a tribute to Paul W. Oman (1988)	\$12
No. 13	A catalog of Scolytidae and Platypodidae (Coleoptera), part 2: taxonomic index (2 vols.) (1992)	\$60

Please make checks or money orders payable to GREAT BASIN NATURALIST and send to the above address.

INFORMATION FOR AUTHORS

The *Great Basin Naturalist* welcomes previously unpublished manuscripts pertaining to the biological natural history of western North America. Preference will be given to concise manuscripts of up to 12,000 words. Simple species lists are discouraged.

SUBMIT MANUSCRIPTS to Richard W. Baumann, Editor, *Great Basin Naturalist*, 290 MLBM, PO Box 20200, Brigham Young University, Provo, UT 84602-0200. An accompanying cover letter must include phone number(s) of the author submitting the manuscript, and FAX number and E-mail address when applicable; the letter must also provide information describing the extent to which data, text, or illustrations have been used in other papers or books that are published, in press, submitted, or soon to be submitted elsewhere. Authors should adhere to the following guidelines; manuscripts not so prepared may be returned for revision.

MANUSCRIPT PREPARATION. In general, the *Great Basin Naturalist* follows recommendations in *Scientific Style and Format: The CBE Manual for Authors, Editors, and Publishers*, 6th edition (Cambridge University Press, 110 Midland Avenue, Port Chester, NY 10573, USA; TOLL-FREE PHONE 1-800-872-7423). We do, however, differ in our treatment of entries in Literature Cited. Authors may consult the most recent issue of the *Great Basin Naturalist* for formatting guidelines

TYPE AND DOUBLE SPACE all materials, including literature cited, table headings, and figure legends. Avoid hyphenated words at the right-hand margins. Use WordPerfect's italics feature for words to be printed in italics. Use standard bond (22×28 cm), leaving 2.5-cm margins on all sides.

SUBMIT 3 COPIES of the manuscript (5 copies of fish manuscripts) and the original on a 3.5-inch disk utilizing WordPerfect 5.1 or above. Number all pages and assemble each copy separately: title page, abstract and key words, text, acknowledgments, literature cited, appendices, tables, figure legends, figures.

TITLE PAGE includes an informative title no longer than 15 words, names and addresses of authors, a running head of fewer than 40 letters and spaces, footnotes to indicate change of address and author to whom correspondence should be addressed if other than the first author.

ABSTRACT states the purpose, methods, results, and conclusions of the research. It is followed by 6–12 key words, listed in order of decreasing importance, to be used for indexing.

TEXT has centered main headings printed in all capital letters; second-level headings are centered in upper- and lowercase letters; third-level headings begin paragraphs.

VOUCHER SPECIMENS. Authors are encouraged to designate, properly prepare, label, and deposit high-quality voucher specimens and cultures documenting their research in an established permanent collection, and to cite the repository in publication.

REFERENCES IN THE TEXT are cited by author and date: e.g., Martin (1989) or (Martin 1989). Multiple citations should be separated by commas and listed in chronological order. Use "et al." after name of first author for citations having more than two authors.

ACKNOWLEDGMENTS, under a centered main heading, include special publication numbers when appropriate.

LITERATURE CITED, also under a centered main heading, lists references alphabetically in the following formats:

Mack, G.D., and L.D. Flake. 1980. Habitat relationships of waterfowl broods on South Dakota stock ponds. *Journal of Wildlife Management* 44:695–700.

Sonsa, W.P. 1985. Disturbance and patch dynamics on rocky intertidal shores. Pages 101–124 in S.T.A. Pickett and P.S. White, editors, *The ecology of natural disturbance and patch dynamics*. Academic Press, New York.

Coulson, R.N., and J.A. Witter. 1984. *Forest entomology: ecology and management*. John Wiley and Sons, Inc., New York. 669 pp.

TABLES are double spaced on separate sheets and designed to fit the width of either a single column (6.7 cm) or a page (14.0 cm). Use lowercase letters to indicate footnotes.

PHOTOCOPIES OF FIGURES are submitted initially with the manuscript; editors may suggest changes. Lettering on figures should be large enough to withstand reduction to one- or two-column width. Originals must be no larger than 22×28 cm.

NOTES. If the manuscript would be more appropriate as a short communication or note, follow the above instructions but do not include an abstract.

A CHARGE of \$50 per page is made for articles published; the rate for individual subscribers will be \$35 per page. However, manuscripts with complex tables and/or numerous photographs may be assessed an additional charge. Reprints may be purchased at the time of publication (an order form is sent with the proofs).

FINAL CHECK:

- Cover letter explaining any duplication of information and providing phone number(s), FAX number, and E-mail address
- 3 copies of the manuscript (5 copies of fish papers) and WordPerfect diskette
- Conformity with instructions
- Photocopies of illustrations

CONTENTS**Articles**

- Chromosome races in *Sarcobatus* (Sarcobataceae, Caryophyllales)
 Stewart C. Sanderson, Howard C. Stutz, Mildred Stutz,
 and Richard C. Roos **301**
- Geography of exotic plants adjacent to campgrounds, Yellowstone National Park,
 USA Karen Allen and Katherine Hansen **315**
- Habitat characteristics of small mammals in southeastern Utah . . . Maite Sureda
 and Michael L. Morrison **323**
- Predatory bird populations in the east Mojave Desert, California
 Richard L. Knight, Richard J. Camp, William I. Boarman,
 and Heather A.L. Knight **331**
- Environmental effects on Common Snipe winnowing and calling (activity)
 Kevin D. Downs and Stanley H. Anderson **339**
- Characteristics of white-tailed deer fawn beds, Black Hills, South Dakota
