Recommended Citation

(1978) "End Matter, Vol. 20 No. 5," *Brigham Young University Science Bulletin, Biological Series*: Vol. 20 : No. 5 , Article 3.
Available at: <https://scholarsarchive.byu.edu/byuscib/vol20/iss5/3>

This End Matter is brought to you for free and open access by the Western North American Naturalist Publications at BYU ScholarsArchive. It has been accepted for inclusion in Brigham Young University Science Bulletin, Biological Series by an authorized editor of BYU ScholarsArchive. For more information, please contact scholarsarchive@byu.edu, ellen_amatangelo@byu.edu.

INFORMATION FOR CONTRIBUTORS

The *Brigham Young University Science Bulletin*, Biological Series, has been combined with the *Great Basin Naturalist* commencing with Volume 35 of the latter (March 1975). The *BYU Science Bulletin*, in the current format, will be terminated with Volume 20. The format for the new journal, which will retain the title the *Great Basin Naturalist*, will be a seven- by ten- inch double-column page. It will continue to be published quarterly, but the number of pages per volume will increase to approximately 500. Manuscripts up to 100 printed pages (about 200 manuscript pages) in length will be acceptable. Publication and reprint charges will be adjusted to the new format, but they will not be significantly different from those indicated below. The subscription rate will be increased to \$9 per year (outside the United States, \$10).

Original manuscripts in English pertaining to the Biological natural history of western North America and intended for publication in the *Great Basin Naturalist* should be directed to Brigham Young University, Stephen L. Wood, Editor, Great Basin Naturalist, Provo, Utah 84602.

MANUSCRIPTS: Two copies are required, typewritten, double-spaced throughout on one side of the paper, with margins of at least one inch on all sides. In general, the style should conform to recommendations published in the most recent edition of the Council of Biology Editors Style Manual, published by the American Institute of Biological Sciences. An abstract, about 3 percent as long as the text and written in accordance with Biological Abstracts guidelines, should precede the introductory paragraph of each article.

ILLUSTRATIONS AND TABLES: All illustrations should be made with a view of having them appear within the limits of the printed page. The illustrations that form a part of an article should accompany the manuscript. All illustrations and tables to appear in this journal are to be made under the supervision of the editor, and the cost of the cuts and labor required to set tables is to be borne by the Contributor.

REPRINTS: No reprints are furnished free of charge. A price list for reprints and an order form are sent with the proof.
