It has been accepted for inclusion in Western North American Naturalist by an authorized editor of BYU ScholarsArchive. For more information, please contact scholarsarchive@byu.edu.

OUTSTANDING NATURAL HISTORY PAPER OF 2011

The *Western North American Naturalist* (WNAN) is pleased to announce the 2011 award for the outstanding natural history paper of the year. This annual award was instituted to celebrate our authors' achievements in creative and meaningful research, insightful interpretation, and articulate writing. Finalists were selected from the 37 regular articles published in Volume 71, and the WNAN Editorial Board

members selected a winner by vote. The winning paper was *Effects of wildfire and postfire floods on stonefly detritivores of the Pajarito Plateau, New Mexico* by Nicole K. M. Vieira, Tiffany R. Barnes, and Katharine A. Mitchell (WNAN 71:257–270). Nicole Vieira, as senior author of the top paper, will receive a cash award of \$300.00.

ERRATUM: “STATUS OF LOST RIVER SUCKER AND SHORTNOSE SUCKER” (2011)

The publisher would like to draw the reader's attention to an error in the following article:

RASMUSSEN, JOSH E. 2011. Status of Lost River sucker and shortnose sucker. *Western North American Naturalist* 71:442–455.

On page 454, the Lease (2000) citation should read

LEASE, H.M. 2000. Histopathological changes in gills of Lost River suckers (*Deltistes luxatus*) exposed to elevated ammonia and elevated pH. Master's thesis, University of Wyoming, Laramie, WY. 91 pp.
