## The Cemetery Record of William D. Huntington, Nauvoo Sexton

*Fred E. Woods*

When John Butler first visited Commerce (later known as Nauvoo) he recalled, "I asked Brother Joseph what kind of a place it was. He said it was a low, marshy, wet, damp and nasty place, but that if we went to work and improved it, it would become more healthy and the Lord would bless it for our sakes."<sup>1</sup> The Prophet Joseph Smith also stated, "The name of our city (Nauvoo) is of Hebrew origin, and signifies a beautiful situation, or place, carrying with it, also, the idea of *rest*; and is truly descriptive of the most delightful situation. . . . This place has been objected to by some, on account of the sickness which has prevailed in the summer months." Yet Joseph expressed his hope that such sickness could be "remedied by draining the sloughs on the adjacent islands in the Mississippi."<sup>2</sup> The Saints did drain the swampy terrain of Nauvoo, but the call of death continued. A Nauvoo cemetery record kept by William Dresser Huntington during the years 1839-1846, evidences that although malaria appears to be the most prevalent disease in Nauvoo, there were several other types of sickness and illness which brought many Nauvoo Saints to an early death.<sup>3</sup>

As noted in an autobiographical sketch recorded in the second quorum of the "Seventies Record," William D. Huntington was born 28 February 1818 in Watertown, New York. He was baptized by Luke Johnson in August 1836, after which he migrated to Kirtland, Ohio, the following October. William moved to Missouri in the fall of 1838, but in early 1839, he sought

refuge in Illinois with the main body of the Church. William married Caroline Clark in September 1839, and by the fall of 1843 they had three children. William concludes his sketch by stating, "I came to Nauvoo with the first family of Saints and remained until the present. Nauvoo, December 4, 1844."<sup>4</sup>

Soon after moving to Hancock County, William was appointed constable and also served as sexton.<sup>5</sup> A copy of the Nauvoo cemetery record William kept, titled "Record of Deaths in the City of Nauvoo," was acquired from a family member and catalogued by the LDS Family and Church History Department in March 2000. It is reproduced here with the same columns and in the same sequence in which it was written. There seems to be some order to the record as the deaths are grouped by year. However, the record does not follow a chronological format and in many cases no exact death date is given.

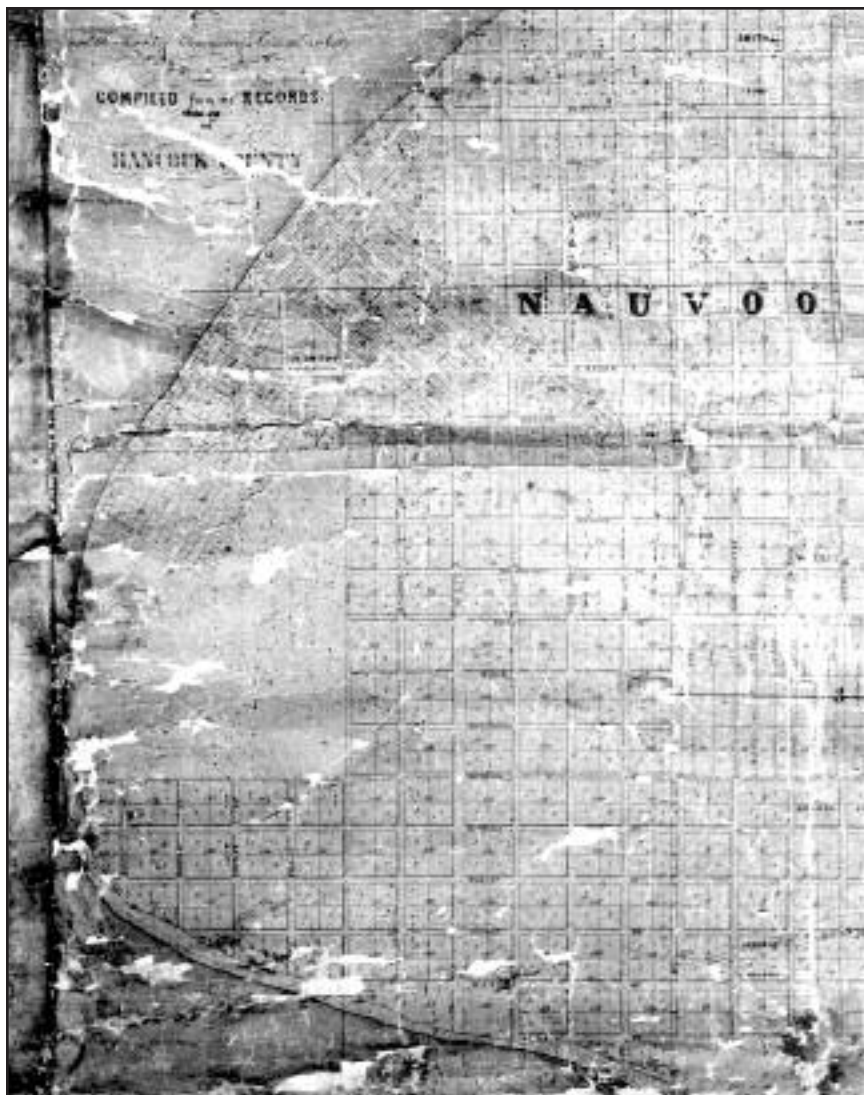

The first name written on the document and what appears to be the earliest death recorded is Zina Huntington whom the record documents dying on 7 July 1839. This appears to be Zina Baker Huntington who was the mother of William.<sup>6</sup> The second name on the record is Edward Partridge, the first bishop of the Church. Although no death date is listed for Partridge, his death date is known to be 27 May 1840.<sup>7</sup> An additional 24 names follow and then written near the bottom of the page is the note, "Commensen [sic] in the new grave yard," which is then followed by a list of another 798 names. This transitional note appears to indicate the shift from the old burying ground which was located on Durphy Street to another location. According to LaMar C. Berrett and Donald Q. Cannon, the old Nauvoo burying ground "covered a square area south of White Street to a point about one-quarter block north of Hotchkiss Street. The cemetery's west boundary was near Jenetta Richard's grave just west of Durphy Street, and it extended east across Durphy into Nauvoo State Park."<sup>8</sup>

Section of the map (see opposite page) shows outline of the cemetery bordering White Street and covering both sides of Durphy Street.

According to Ida Blum, *Nauvoo: Gateway To The West* (printed and published by Ida Blum, 1971 through the Journal Printing Company, Carthage, Illinois), 147, (under the title, "The Old Nauvoo

Pioneer Cemetery,"), "In the early days Nauvoo had a large cemetery at the foot of Martin Hill on Durphy street, but when the gravel road was placed

*"Map of Nauvoo with all the Additions and the Towns of Commerce & Commerce City. Compiled from the Records [1846-1848 is written by hand and inserted here] of Hancock County." The map was printed by L. Bechtold, Jr., Philadelphia. This map is on exhibit during the summers at the Rheinberger House Museum, located in the Nauvoo State Park, and during the winters it is housed in the Nauvoo Tourism Office. The map was found in the attic of the Rheinberger House in 1999 and was restored in 2001 to display as an exhibit. Appreciation is expressed to Joseph D. Johnston (Director of the Nauvoo Tourism Office) for bringing the map to the author's attention. The section showing the graveyard (see opposite page) is shown within dotted lines.*

June the following year, according to an advertisement in the 25 June 1842 *Wasp*, this cemetery was ready to receive bodies. Located southeast of the city and known as the Pioneer Cemetery, its lots were offered for sale at public auction at the office of Hyrum Smith. Before June 1842, the cemetery used most was one located on Durphy Street. On 15 January 1845 the *Neighbor* reported that the city council ordered the rerouting of Durphy Street around the cemetery instead of through it. This order was obviously not carried out, because Durphy Street makes no such detour as described by the editor. . . . “ [p.128]

Berrett notes that Edward Partridge was among those buried in the old burying ground and points out that “his remains were reburied in the Old Pioneer Cemetery.”<sup>9</sup> The evidence suggests that the 26 people buried in the old burying ground were re-interred in what is today called the Old Pioneer Cemetery located on Parley Street.<sup>10</sup>

All total, 834 persons are listed in the record; however, one name is a duplication, and is only counted one time in the appendix. The latest death

through the town in 1848 many of the graves were removed to Cemetery 1 [meaning the Old Pioneer Cemetery located on Parley Street approximately two miles east of State Road 96].”

This date seems to be in error, as evidenced by the William D. Huntington burial record which demonstrates that the removal of various bodies occurred earlier. Furthermore, “In May 1841 Joseph Smith recorded that a new burying ground of ten acres had been purchased outside the city limits.” [*History of the Church*, 4:353]. By

date is that of John Prier who died of a “liver affection” on 11 May 1846. Some entries which immediately draw attention are “Infant of Joseph Smith,” “Nobody 1845,” or “Holeland Coloured Woman” who died at age 55 of consumption. This valuable document, now published for the first time, will add another important dimension to research concerning Nauvoo death studies.<sup>11</sup> It is also hoped that it will be the means of benefitting families who are seeking out their kindred dead.

Jenetta died on 9 July 1845. Originally, she was buried near the Richards home. Later, her remains were moved to another location on the Richards property, then moved again to this site in the early 1900s. The present grave location is situated just south of what was once the old Nauvoo burying ground. The burial ground was located between White and Hotchkiss Streets, and on both sides of Durphy Street. Photograph by Alexander L. Baugh.*

## Notes

1. John Butler, *Autobiography of John Butler*, typescript, 21, L. Tom Perry Special Collections Library, Harold B. Lee Library, Brigham Young University, Provo, Utah.

2. The First Presidency, "A Proclamation to the Saints Scattered Abroad," *Millennial Star* 1 (March 1841): 270.

3. One author maintains that malaria was the most prevalent disease in the Nauvoo region. See Robert T. Divett, *Medicine and the Mormons* (Bountiful, Utah: Horizon Publishers, 1981), 60. Other historians give evidence from a different Nauvoo sexton record (1843-1845), that ague accounted for 4.3 percent of the deaths, while fever caused 22.6 percent. However, the authors point out that malaria was frequently referred to as both "ague" and "fever." Furthermore, the authors note that other leading causes of deaths were diarrhea (10.7 percent), inflammation of the brain (8.1 percent), and canker (6.1 percent). See M. Guy Bishop, Vincent Lacey, and Richard Wixon, "Death at Mormon Nauvoo, 1843-1845," *Western Illinois Regional Studies* 9, no.2 (Fall 1986): 71,

75. Concerning age and death, Lyndon Cook has calculate that, "31 percent of all deaths were among infants, 12 percent were among children ages two to five, and 5 percent were among children six through ten. Thus, 48 percent of all recorded deaths at Nauvoo . . . were among children under the age of ten." He also pointed out that at the time, "Life expectancy nation-wide was about 40 for men and 43 years for women." Lyndon Cook, *Nauvoo: Deaths and Marriages, 1839-1845* (Orem, Utah: Grandin Book, 1994), v. The reader is also referred to H. Dean Garrett, "Disease and Sickness in Nauvoo," in *Regional Studies in Latter-day Church History*, ed. H. Dean Garrett, (Provo, Utah: Department of Church History and Doctrine, Brigham Young University, 1995), 169-82.

4. Autobiographical sketch of William D. [Dresser] Huntington, Seventies Record, 2<sup>nd</sup> Quorum, Biographies, 74, LDS Church Archives, Salt Lake City, Utah. The names of the children born to William and Caroline during the early 1840s were William, Heber, and Mary Caroline. Appreciation is expressed to my colleague, Ray Huntington, a descendent of William for allowing me to use a copy of this record in his possession.

5. William Huntington moved his family to Winter Quarters at the time of the Nauvoo exodus in 1846). He traveled to Salt Lake in 1849 where he remained for two years. In 1851 he moved to Springville where he was active in civic, church, and community affairs until his death in 1881. See Lottie H. Lambson, "William Dresser Huntington," in *An Enduring Legacy*, 12 vols. (Salt Lake City: Daughters of the Utah Pioneers, 1981), 4:132-33.

6. Susan Easton Black notes that the death date of Zina Baker [Huntington] was 8 July 1839. There is a one day discrepancy between this date and the Nauvoo death record. compiler. See Susan Easton Black, *Membership of the Church of Jesus Christ of Latter-day Saints. 1830-1848*, 50 vols. (Provo, Utah: Religious Studies Center, Brigham Young University, 1984), 3:325, (hereafter cited as Black, *Membership*).

9. Berrett, *Sacred Places*, 168.

10. Berrett, *Sacred Places*, 188. There are about two hundred headstones in the Old Pioneer Cemetery which are legible.

11. This record has been used at least in two compilations on deaths in Nauvoo, but this is the first time it has been published as a document on its own. Lyndon Cook, in *Nauvoo Deaths and Marriages, 1839-1845*, extracted the information from Huntington's record and combined it with death records from the three Nauvoo newspapers and the data from the sexton's record and the Nauvoo newspapers, but added material from family and other sources. In several cases when the sexton's record is compared with these other works, there are differences in spelling, dates, and interpretation. The author of this paper has attempted to retain the original information found in Huntington's account. Any additions or clarifications have been put into brackets or in end notes.
