Recommended Citation

(1978) "End Matter, Vol. 38 No. 1," *Great Basin Naturalist*. Vol. 38 : No. 1 , Article 19.

Available at: <https://scholarsarchive.byu.edu/gbn/vol38/iss1/19>

This End Matter is brought to you for free and open access by the Western North American Naturalist Publications at BYU ScholarsArchive. It has been accepted for inclusion in Great Basin Naturalist by an authorized editor of BYU ScholarsArchive. For more information, please contact scholarsarchive@byu.edu, ellen_amatangelo@byu.edu.

NOTICE TO CONTRIBUTORS

Original manuscripts in English pertaining to the biological natural history of western North America and intended for publication in the *Great Basin Naturalist* should be directed to Brigham Young University, Stephen L. Wood, Editor, *Great Basin Naturalist*, Provo, Utah 84602. Those intended for the *Great Basin Naturalist Memoirs* should be similarly directed, but these manuscripts are not encumbered by a geographical restriction.

Manuscripts. Two copies of manuscripts are required. They should be typewritten, double spaced throughout on one side of the paper, with margins of at least one inch on all sides. Use a recent issue of either journal as a format, and the *Council of Biology Editors Style Manual, Third Edition* (AIBS 1972) in preparing the manuscript. An abstract, about 3 percent as long as the text, but not exceeding 200 words, written in accordance with Biological Abstracts guidelines, should precede the introductory paragraph of each article. Authors may recommend one or two reviewers for their article. All manuscripts receive a critical peer review by specialists in the subject area of the manuscript under consideration.

Manuscripts that are accepted and that are less than 100 printed pages in length will automatically be assigned to the *Great Basin Naturalist*. Those manuscripts larger than 100 printed pages in length will be considered for the *Memoirs* series.

Illustrations and Tables. All illustrations and tables should be made with a view toward having them appear within the limits of the printed page. Illustrations that form part of an article should accompany the manuscript. Illustrations should be prepared for reduction by the printer to either a single-column (2 5/8 inches) or double-column (5 1/2 inches) width, with the length not exceeding 7 1/2 inches.

Costs Borne by Contributor. Contributors to the *Great Basin Naturalist* should be prepared to donate from \$10 to \$30 per printed page toward publication of their article (in addition to reprint costs outlined in the schedule below). Authors publishing in the *Great Basin Naturalist Memoirs* may be expected to contribute \$35 per printed page in addition to the cost of printed copies they purchase. No printed copies are furnished free of charge. A price list for reprints and an order form are sent with the galley proof to contributors.

Reprint Schedule of the *Great Basin Naturalist*

	2 pp.	4 pp.	6 pp.	8 pp.	10 pp.	12 pp.	Each
100 copies	\$20	\$24	\$28	\$32	\$36	\$40	additional
200 copies	28	32	36	40	44	48	2 pp.
300 copies	36	40	44	48	52	56	\$4

Great Basin Naturalist Memoirs

No. 1 The birds of Utah. By C. L. Hayward, C. Cottam, A. M. Woodbury, H. H. Frost. \$10.

No. 2 Intermountain biogeography: A symposium. By K. T. Harper, J. L. Reveal, et al. \$15.

TABLE OF CONTENTS

Endangered and threatened plants of Utah: A reevaluation. Stanley L. Welsh	1
Plants of Navajo National Monument. J. D. Brotherson, G. Nebeker, M. Skougard, and J. Fairchild	19
Environmental interaction in summer algal communities of Utah Lake. Mark C. Whiting, Jack D. Brotherson, and Samuel R. Rushforth	31
Basidiomycetes that decay junipers in Arizona. II. R. L. Gilbertson and J. P. Lind- sey	42
<i>Pinus longaeva</i> in the Stansbury Mountains, Utah. P. A. Kay and C. G. Oviatt	49
Differential parasitism of <i>Peromyscus maniculatus</i> and <i>Peromyscus truei</i> by <i>Cut- erebra</i> larvae. Jeffrey B. Llewellyn	51
An annotated list of the aquatic insects of southeastern Idaho, Part III. Ephem- eroptera. Robert L. Newell and G. Wayne Minshall	55
Observations on the prey and nests of seven species of <i>Cerceris</i> (Hymenoptera: Sphecidae). Howard E. Evans and William L. Rubink	59
Vertebrate fauna of a radioactive leaching pond complex in southeastern Idaho. Douglas K. Halford and Jere B. Millard	64
New synonymy, new species, and taxonomic notes of North American <i>Pityoph- thorus</i> (Coleoptera: Scolytidae), Part III. Donald E. Bright	71
Fluctuation of a marsh habitat and the reproductive strategy of the Yellow-headed Blackbird. Roger J. Lederer	85
Hosts of juniper mistletoe at Walnut Canyon National Monument, Arizona. Frank G. Hawksworth and Robert L. Mathiasen	89
Allelopathic effects of Bur Buttercup tissue on germination and growth of various grasses and forbs <i>in vitro</i> and in soil. Bruce A. Buchanan, K. T. Harper, and Neil C. Frischknecht	90
New species of Nearctic <i>Neoperla</i> (Plecoptera: Perlidae), with notes on the genus. Bill P. Stark and Richard W. Baumann	97
Morphometry of sculpins (<i>Cottus</i>) in the Clearwater drainage, Idaho. O. Eugene Maughan	115
Correction: <i>Rhamnus cathartica</i> L. is not <i>Prunus nigra</i> Ait. from Alberta. R. Keith Shaw	123
