Recommended Citation

(1980) "End Matter, Vol. 40 No. 2," *Great Basin Naturalist*: Vol. 40 : No. 2 , Article 22.

Available at: <https://scholarsarchive.byu.edu/gbn/vol40/iss2/22>

This End Matter is brought to you for free and open access by the Western North American Naturalist Publications at BYU ScholarsArchive. It has been accepted for inclusion in *Great Basin Naturalist* by an authorized editor of BYU ScholarsArchive. For more information, please contact scholarsarchive@byu.edu, ellen_amatangelo@byu.edu.

NOTICE TO CONTRIBUTORS

Original manuscripts in English pertaining to the biological natural history of western North America and intended for publication in the *Great Basin Naturalist* should be directed to Brigham Young University, Stephen L. Wood, Editor, *Great Basin Naturalist*, Provo, Utah 84602. Those intended for the *Great Basin Naturalist Memoirs* should be similarly directed, but these manuscripts are not encumbered by a geographical restriction.

Manuscripts. Two copies of manuscripts are required. They should be typewritten, double spaced throughout on one side of the paper, with margins of at least one inch on all sides. Use a recent issue of either journal as a format, and the *Council of Biology Editors Style Manual, Third Edition* (AIBS 1972) in preparing the manuscript. An abstract, about 3 percent as long as the text, but not exceeding 200 words, written in accordance with Biological Abstracts guidelines, should precede the introductory paragraph of each article. Authors may recommend one or two reviewers for their article. All manuscripts receive a critical peer review by specialists in the subject area of the manuscript under consideration.

Manuscripts that are accepted and that are less than 100 printed pages in length will automatically be assigned to the *Great Basin Naturalist*. Those manuscripts larger than 100 printed pages in length will be considered for the *Memoirs* series.

Illustrations and Tables. All illustrations and tables should be made with a view toward having them appear within the limits of the printed page. Illustrations that form part of an article should accompany the manuscript. Illustrations should be prepared for reduction by the printer to either a single-column (2 $\frac{5}{8}$ inches) or double-column (5 $\frac{1}{2}$ inches) width, with the length not exceeding 7 $\frac{1}{2}$ inches.

Costs Borne by Contributor. Contributors to the *Great Basin Naturalist* should be prepared to donate from \$10 to \$30 per printed page toward publication of their article (in addition to reprint costs outlined in the schedule below). Authors publishing in the *Great Basin Naturalist Memoirs* may be expected to contribute \$35 per printed page in addition to the cost of the printed copies they purchase. No printed copies are furnished free of charge. A price list for reprints and an order form are sent with the galley proof to contributors.

Reprint Schedule of the *Great Basin Naturalist*

	2 pp.	4 pp.	6 pp.	8 pp.	10 pp.	12 pp.	Each additional
100 copies	\$20	\$24	\$28	\$32	\$36	\$40	
200 copies	28	32	36	40	44	48	2 pp.
300 copies	36	40	44	48	52	56	\$4

Great Basin Naturalist Memoirs

- No. 1 The birds of Utah. By C. L. Hayward, C. Cottam, A. M. Woodbury, H. H. Frost. \$10.
 No. 2 Intermountain biogeography: a symposium. By K. T. Harper, J. L. Reveal et al. \$15.
 No. 3 The endangered species: a symposium. \$6.

TABLE OF CONTENTS

Feeding ecology of <i>Gila boraxobius</i> (Osteichthyes: Cyprinidae) endemic to a thermal lake in southeastern Oregon. Jack E. Williams and Cynthia D. Williams	101
First record of the pallid bat (<i>Antrozous pallidus</i>) from Montana. Jeff Shryer and Dennis L. Flath	115
A <i>Chiracanthium</i> spider bite. Dorald M. Allred	116
Identity of narrow-leaved <i>Chrysothamnus viscidiflorus</i> (Asteraceae). Loran C. Anderson	117
Ribulose diphosphate carboxylase activities in cold-resistant common mallow, <i>Malva neglecta</i> Wallr. and a cold-sensitive tomato, <i>Lycopersicon esculentum</i> L., Ace 55 var. William R. Andersen and Jack D. Brotherson	121
Recovery of Gambel oak after fire in central Utah. L. M. Kunzler and K. T. Harper ..	127
Relationships among total dissolved solids, conductivity, and osmosity for five <i>Artemia</i> habitats (Anostraca: Artemiidae). Nicholas C. Collins and Gray Stirling	131
Spawning of the least chub (<i>Notichthys phlegenthotis</i>). Thomas M. Baugh	139
Transferrin polymorphism in bighorn sheep, <i>Ovis canadensis</i> , in Colorado. Patrick W. Roberts, Donald J. Nash, and Robert E. Keiss	141
The genus <i>Eriogonum</i> Michx. (Polygonaceae) and Michel Gandoger. James L. Reveal	143
Parasites from two species of suckers (Catostomidae) from southern Utah. J. Craig Brienholt and Richard A. Heckmann	149
Soil water withdrawal and root distribution under grubbed, sprayed, and undisturbed big sagebrush vegetation. David L. Sturges	157
Swarming of the western harvester ant, <i>Pogonomyrmex occidentalis</i> . Dorald M. Allred	165
Relationship between environmental and vegetational parameters for understory and open-area communities. William E. Evenson, Jack D. Brotherson, and Richard B. Wilcox	167
Seasonal activity pattern of Columbian ground squirrels in the Idaho primitive area. Charles L. Elliott and Jerran T. Flinders	175
Habitat and plant distributions in hanging gardens of the narrows, Zion National Park, Utah. George P. Malanson	178
Short-term effects of logging on red-backed voles and deer mice. Thomas M. Campbell III and Tim W. Clark	183
Terminal bud formation in limber pine. Ronald M. Lamer and James A. Bryan	190
Stinger utilization and predation in the scorpion <i>Pauroctonus boreus</i> . Bruce S. Cushing and Anne Matherne	193
