Recommended Citation

(1981) "End Matter, Vol. 41 No. 4," *Great Basin Naturalist*. Vol. 41 : No. 4 , Article 20.

Available at: <https://scholarsarchive.byu.edu/gbn/vol41/iss4/20>

This End Matter is brought to you for free and open access by the Western North American Naturalist Publications at BYU ScholarsArchive. It has been accepted for inclusion in Great Basin Naturalist by an authorized editor of BYU ScholarsArchive. For more information, please contact scholarsarchive@byu.edu, ellen_amatangelo@byu.edu.

NOTICE TO CONTRIBUTORS

Original manuscripts in English pertaining to the biological natural history of western North America and intended for publication in the *Great Basin Naturalist* should be directed to Brigham Young University, Stephen L. Wood, Editor, *Great Basin Naturalist*, Provo, Utah 84602. Those intended for the *Great Basin Naturalist Memoirs* should be similarly directed, but these manuscripts are not encumbered by a geographical restriction.

Manuscripts. Two copies of manuscripts are required. They should be typewritten, double spaced throughout on one side of the paper, with margins of at least one inch on all sides. Use a recent issue of either journal as a format, and the *Council of Biology Editors Style Manual, Third Edition* (AIBS 1972) in preparing the manuscript. An abstract, about 3 percent as long as the text, but not exceeding 200 words, written in accordance with Biological Abstracts guidelines, should precede the introductory paragraph of each article. Authors may recommend one or two reviewers for their article. All manuscripts receive a critical peer review by specialists in the subject area of the manuscript under consideration.

Manuscripts that are accepted and that are less than 100 printed pages in length will automatically be assigned to the *Great Basin Naturalist*. Those manuscripts larger than 100 printed pages in length will be considered for the *Memoirs* series.

Illustrations and Tables. All illustrations and tables should be made with a view toward having them appear within the limits of the printed page. Illustrations that form part of an article should accompany the manuscript. Illustrations should be prepared for reduction by the printer to either single-column (2¾ inches) or double-column (5½ inches) width, with the length not exceeding 7½ inches.

Costs Borne by Contributor. Contributors to the *Great Basin Naturalist* should be prepared to donate from \$10 to \$30 per printed page towards publication of their article (in addition to reprint costs outlined in the schedule below). Authors publishing in the *Great Basin Naturalist Memoirs* may be expected to contribute \$35 per printed page in addition to the cost of the printed copies they purchase. No printed copies are furnished free of charge. A price list for reprints and an order form are sent with the galley proofs to contributors.

Reprint Schedule of the *Great Basin Naturalist*

	2 pp.	4 pp.	6 pp.	8 pp.	10 pp.	12 pp.	Each additional
100 copies	\$20	\$24	\$28	\$32	\$36	\$40	
200 copies	28	32	36	40	44	48	2 pp.
300 copies	36	40	44	48	52	56	\$4

Great Basin Naturalist Memoirs

- No. 1 The birds of Utah. By C. L. Hayward, C. Cottam, A. M. Woodbury, H. H. Frost. \$10.
- No. 2 Intermountain biogeography: a symposium. By K. T. Harper, J. L. Reveal et al. \$15.
- No. 3 The endangered species: a symposium. \$6.
- No. 4 Soil-plant-animal relationships bearing on revegetation and land reclamation in Nevada deserts. \$6.
- No. 5 Utah Lake monograph. \$8.
- No. 6 The bark and ambrosia beetles of North and Central America (Coleoptera: Scolytidae), a taxonomic monograph. \$60.

TABLE OF CONTENTS

Electrophoresis of isoenzymes of 16 western shrubs: technique development. R. L. Leonard, E. D. McArthur, D. J. Weber, and B. W. Wood	377
Nest of <i>Formica propinqua</i> (Hymenoptera:Formicidae). George C. Wheeler and Jeanette Wheeler	389
Range extension of <i>Helianthus</i> spp. (<i>Asteraceae</i>) in Arizona and Utah. Gerald J. Seiler and Luka Cuk	393
Species composition and relative abundance of adult fish in Pyramid Lake, Nevada. Steven Vigg	395
Feeding interrelations of native fishes in a Sonoran Desert stream. Donald C. Schreiber and W. L. Minckley	409
Notes on the reproductive biology of <i>Zigadenus paniculatus</i> , a toxic range plant. V. J. Tepedino	427
A note on the food of <i>Callibaetis</i> (Ephemeroptera:Baetidae). C. E. Cushing and R. T. Rader	431
Subaerial algae of Navajo National Monument, Arizona. Jeffrey R. Johansen, Samuel R. Rushforth, and Jack D. Brotherson	433
History and status of the Franklin's Gull on Malheur National Wildlife Refuge, Oregon. Carroll D. Littlefield and Steven P. Thompson	440
<i>Ophiotaenia critica</i> (Cestoda: Proteocephalidae), a parasite of the Colorado River Squawfish. Mbida Mpoame and E. James Landers	445
Summer food habits of coyotes in central Wyoming. Joseph Tucker Springer and J. Steven Smith	449
Microenvironment and nest site selection by ring-necked pheasants in Utah. Alan K. Wood and Jack D. Brotherson	457
Bald eagle winter survey in the Snake River Canyon, Wyoming. Art H. Korhel and Tim W. Clark	461
Length of western tent caterpillar egg masses and diameter of their associated stems. J. M. Schmid, P. A. Farrar, and I. Ragenovich	465
Understory vegetation in fully stocked pinyon-juniper stands. Richard L. Everett and Susan Koniak	467
Association of Rhabdocline needle blight and epicormic branching in Douglas-fir. Ronald M. Lanner and James A. Bryan	476
