Recommended Citation

(1982) "End Matter, Vol. 42 No. 3," *Great Basin Naturalist*: Vol. 42 : No. 3 , Article 16.
Available at: <https://scholarsarchive.byu.edu/gbn/vol42/iss3/16>

This End Matter is brought to you for free and open access by the Western North American Naturalist Publications at BYU ScholarsArchive. It has been accepted for inclusion in Great Basin Naturalist by an authorized editor of BYU ScholarsArchive. For more information, please contact scholarsarchive@byu.edu, ellen_amatangelo@byu.edu.

NOTICE TO CONTRIBUTORS

Manuscripts intended for publication in the *Great Basin Naturalist* or *Great Basin Naturalist Memoirs* must meet the criteria outlined in paragraph one on the inside front cover. They should be directed to Brigham Young University, Stephen L. Wood, Editor, Great Basin Naturalist, 290 Life Science Museum, Provo, Utah 84602. Three copies of the manuscript are required. They should be typewritten, double spaced throughout on one side of the paper, with margins of at least one inch on all sides. Use a recent issue of either journal as a format, and the *Council of Biology Editors Style Manual, Fourth Edition* (AIBS 1978) in preparing the manuscript. An abstract, about 3 percent as long as the text, but not exceeding 200 words, written in accordance with *Biological Abstracts* guidelines, should precede the introductory paragraph of each article.

All manuscripts receive a critical peer review by specialists in the subject area of the manuscript under consideration. Authors may recommend one or two reviewers for their article.

Accepted manuscripts less than 100 printed pages in length will automatically be assigned to the *Great Basin Naturalist*. Those larger than 100 printed pages will be considered for the *Memoirs* series.

Illustrations and Tables. All illustrations and tables should be made with a view toward having them appear within the limits of the printed page. The original illustrations or glossy photoprints of them should accompany the manuscript. Illustrations should be prepared for reduction by the printer to either single-column (2 $\frac{3}{8}$ inches) or double-column (5 $\frac{1}{2}$ inches) width, with the length not exceeding 7 $\frac{1}{2}$ inches.

Costs Borne by Contributor. Contributors to the *Great Basin Naturalist* should be prepared to donate from \$10 to \$40 per printed page toward publication of their article (in addition to reprint costs). Excessive or complex tables requiring typesetting may be charged to the author at cost. Authors publishing in the *Great Basin Naturalist Memoirs* may be expected to contribute \$40 per printed page in addition to the cost of the printed copies they purchase. No reprints are furnished free of charge.

Reprint Schedule for the *Great Basin Naturalist*

100 copies, minimum cost for 2 pages, \$26.

Each additional 2 pages, \$6.

Each additional 100 copies, \$4 for each 2 pages.

Examples: 300 copies of 10 pages = \$82; 200 copies of 13 pages = \$86.

Great Basin Naturalist Memoirs

No. 1 The birds of Utah. By C. L. Hayward, C. Cottam, A. M. Woodbury, H. H. Frost. \$10.

No. 2 Intermountain biogeography: a symposium. By K. T. Harper, J. L. Reveal et al. \$15.

No. 3 The endangered species: a symposium. \$6.

No. 4 Soil-plant-animal relationships bearing on revegetation and land reclamation in Nevada deserts. \$6.

No. 5 Utah Lake monograph. \$8.

No. 6 The bark and ambrosia beetles of North and Central America (Coleoptera: Scolytidae), a taxonomic monograph. \$60.

TABLE OF CONTENTS

Buccal floor of reptiles, a summary. Wilmer W. Tanner and David F. Avery	273
Western diamondback rattlesnake in southern Nevada: a correction and comments. Frederick H. Emmerson	350
Prevalence of <i>Elaeophora schneideri</i> and <i>Ouchocerca cervipedis</i> in mule deer from central Utah. Lauritz A. Jensen, Jordan C. Pederson, and Ferron L. Andersen	351
Ecomorphology and habitat utilization of <i>Echinocereus engelmannii</i> and <i>E. triglochidiatus</i> (Cactaceae) in southeastern California. Richard I. Yeaton	353
First specimen of the spotted bat (<i>Euderma maculatum</i>) from Colorado. Robert B. Finley, Jr., and James Creasy	360
Status of introduced fishes in certain spring systems in southern Nevada. Walter R. Courtenay, Jr., and James E. Deacon	361
A new species of <i>Peustemon</i> (Scrophulariaceae) from the Uinta Basin of Utah and Colorado. John Larry England	367
<i>Phalacrospis dispar</i> (Coleoptera: Phalacridae), an element in the natural control of native pine stem rust fungi in the western United States. David L. Nelson	369
Species-habitat relationships in an Oregon cold desert lizard community. David F. Werschkul	380
Preliminary index of authors of Utah plant names. L. Matthew Chatterley, Blaine T. Welsh, and Stanley L. Welsh	385
Nest site selection in raptor communities of the eastern Great Basin desert. Dwight G. Smith and Joseph R. Murphy	395
Invertebrate faunas and zoogeographic significance of lava tube caves of Arizona and New Mexico. Stewart B. Peck	405
Additions to the vascular flora of Montana and Wyoming. Robert W. Lichvar and Robert D. Dorn	413
