Recommended Citation

(1982) "End Matter, Vol. 42 No. 4," *Great Basin Naturalist*. Vol. 42 : No. 4 , Article 20.

Available at: <https://scholarsarchive.byu.edu/gbn/vol42/iss4/20>

This End Matter is brought to you for free and open access by the Western North American Naturalist Publications at BYU ScholarsArchive. It has been accepted for inclusion in Great Basin Naturalist by an authorized editor of BYU ScholarsArchive. For more information, please contact scholarsarchive@byu.edu, ellen_amatangelo@byu.edu.

NOTICE TO CONTRIBUTORS

Manuscripts intended for publication in the *Great Basin Naturalist* or *Great Basin Naturalist Memoirs* must meet the criteria outlined in paragraph one on the inside front cover. They should be directed to Brigham Young University, Stephen L. Wood, Editor, Great Basin Naturalist, 290 Life Science Museum, Provo, Utah 84602. Three copies of the manuscript are required. They should be typewritten, double spaced throughout on one side of the paper, with margins of at least one inch on all sides. Use a recent issue of either journal as a format, and the *Council of Biology Editors Style Manual, Fourth Edition* (AIBS 1978) in preparing the manuscript. An abstract, about 3 percent as long as the text, but not exceeding 200 words, written in accordance with *Biological Abstracts* guidelines, should precede the introductory paragraph of each article.

All manuscripts receive a critical peer review by specialists in the subject area of the manuscript under consideration. Authors may recommend one or two reviewers for their article.

Accepted manuscripts less than 100 printed pages in length will automatically be assigned to the *Great Basin Naturalist*. Those larger than 100 printed pages will be considered for the *Memoirs* series.

Illustrations and Tables. All illustrations and tables should be made with a view toward having them appear within the limits of the printed page. The original illustrations or glossy photoprints of them should accompany the manuscript. Illustrations should be prepared for reduction by the printer to either single-column (2 $\frac{5}{8}$ inches) or double-column (5 $\frac{1}{2}$ inches) width, with the length not exceeding 7 $\frac{1}{2}$ inches.

Costs Borne by Contributor. Contributors to the *Great Basin Naturalist* should be prepared to donate from \$10 to \$40 per printed page toward publication of their article (in addition to reprint costs). Excessive or complex tables requiring typesetting may be charged to the author at cost. Authors publishing in the *Great Basin Naturalist Memoirs* may be expected to contribute \$40 per printed page in addition to the cost of the printed copies they purchase. No reprints are furnished free of charge.

Reprint Schedule for the *Great Basin Naturalist*

100 copies, minimum cost for 2 pages, \$26.

Each additional 2 pages, \$6.

Each additional 100 copies, \$4 for each 2 pages.

Examples: 300 copies of 10 pages = \$82; 200 copies of 13 pages = \$86.

Great Basin Naturalist Memoirs

No. 1 The birds of Utah. By C. L. Hayward, C. Cottam, A. M. Woodbury, H. H. Frost. \$10.

No. 2 Intermountain biogeography: a symposium. By K. T. Harper, J. L. Reveal et al. \$15.

No. 3 The endangered species: a symposium. \$6.

No. 4 Soil-plant-animal relationships bearing on revegetation and land reclamation in Nevada deserts. \$6.

No. 5 Utah Lake monograph. \$8.

No. 6 The bark and ambrosia beetles of North and Central America (Coleoptera: Scolytidae), a taxonomic monograph. \$60.

TABLE OF CONTENTS

Ants of Utah. Dorald M. Allred	415
Vegetal responses and big game values after thinning regenerating lodgepole pine. D. D. Austin and Philip J. Urness	512
Habitat manipulation for reestablishment of Utah prairie dogs in Capitol Reef National Park. Rodney L. Player and Philip J. Urness	517
Effects of defoliation on reproduction of a toxic range plant, <i>Zigadenus paniculatus</i> . V. J. Tepedino	524
Distribution and relative abundance of fish in Ruth Reservoir, California, in relation to environmental variables. Steven Vigg and Thomas J. Hassler	529
Temperature and salinity relationships of the Nevadan relict dace. Steven Vigg	541
Observations on woundfin spawning and growth in an outdoor experimental stream. Paul Greger and James E. Deacon	549
Early development of the razorback sucker, <i>Xyrauchen texanus</i> (Abbott). W. L. Minckley and Eric S. Gustafson	553
Behavior and habitat preferences of ring-necked pheasants during late winter in central Utah. Jeffrey G. Skousen and Jack D. Brotherson	562
Rhythm of fecal production and protein content for black-tailed jackrabbits. William D. Steigers, Jr., Jerran T. Flinders, and Susan M. White	567
Prairie dog colony attributes and associated vertebrate species. Tim W. Clark, Thomas M. Campbell III, David G. Socha, and Denise E. Casey	572
Distribution of the moss family Grimmiaceae in Nevada. Matt Lavin	583
Insular biogeography of mammals in the Great Salt Lake. Michael A. Bowers	589
Dorsal hair length and coat color in Abert's squirrel (<i>Sciurus aberti</i>). Denis C. Hancock, Jr., and Donald J. Nash	597
The raccoon, <i>Procyon lotor</i> , in Wyoming. E. Blake Hart	599
Intercanine crown distances in red foxes and badgers. E. Blake Hart	601
Index	603
