Recommended Citation

(1986) "End Matter, Vol. 46 No. 3," *Great Basin Naturalist*. Vol. 46 : No. 3 , Article 33.

Available at: <https://scholarsarchive.byu.edu/gbn/vol46/iss3/33>

This End Matter is brought to you for free and open access by the Western North American Naturalist Publications at BYU ScholarsArchive. It has been accepted for inclusion in Great Basin Naturalist by an authorized editor of BYU ScholarsArchive. For more information, please contact scholarsarchive@byu.edu, ellen_amatangelo@byu.edu.

NOTICE TO CONTRIBUTORS

Manuscripts intended for publication in the *Great Basin Naturalist* or *Great Basin Naturalist Memoirs* must meet the criteria outlined in paragraph one on the inside front cover. They should be directed to Brigham Young University, Stephen L. Wood, Editor, Great Basin Naturalist, 290 Life Science Museum, Provo, Utah 84602. Three copies of the manuscript are required. They should be typewritten, double spaced throughout on one side of the paper, with margins of at least one inch on all sides. Use a recent issue of either journal as a format, and the *Council of Biology Editors Style Manual, Fourth Edition* (AIBS 1978) in preparing the manuscript. An abstract, about 3 percent as long as the text, but not exceeding 200 words, written in accordance with *Biological Abstracts* guidelines, should precede the introductory paragraph of each article.

Authors may reduce their typesetting costs substantially (up to half) by sending a copy of their article on an IBM floppy disk in WordPerfect software along with the three hard copies mentioned above. Request instructions before sending disk.

All manuscripts receive a critical peer review by specialists in the subject area of the manuscript under consideration. Authors may recommend one or two reviewers for their article.

Accepted manuscripts less than 100 printed pages in length will automatically be assigned to the *Great Basin Naturalist*. Those larger than 100 printed pages will be considered for the *Memoirs* series.

Illustrations and Tables. All illustrations and tables should be made with a view toward having them appear within the limits of the printed page. The original illustrations or glossy photoprints of them should accompany the manuscript. Illustrations should be prepared for reduction by the printer to either single-column ($2\frac{5}{8}$ inches) or double-column ($5\frac{1}{2}$ inches) width, with the length not exceeding $7\frac{1}{2}$ inches.

Costs Borne by Contributor. Contributors to the *Great Basin Naturalist* should be prepared to donate from \$10 to \$40 per printed page toward publication of their article (in addition to reprint costs). Excessive or complex tables requiring typesetting may be charged to the author at cost. Authors publishing in the *Great Basin Naturalist Memoirs* may be expected to contribute \$40 per printed page in addition to the cost of the printed copies they purchase. No reprints are furnished free of charge.

Reprint Schedule for the *Great Basin Naturalist*

100 copies, minimum cost for 2 pages, \$26.

Each additional 2 pages, \$6.

Each additional 100 copies, \$4 for each 2 pages.

Examples: 300 copies of 10 pages = \$82; 200 copies of 13 pages = \$86.

Great Basin Naturalist Memoirs

- No. 1 The birds of Utah. By C. L. Hayward, C. Cottam, A. M. Woodbury, H. H. Frost. \$10.
- No. 2 Intermountain biogeography: a symposium. By K. T. Harper, J. L. Reveal et al. \$15.
- No. 3 The endangered species: a symposium. \$6.
- No. 4 Soil-plant-animal relationships bearing on revegetation and land reclamation in Nevada deserts. \$6.
- No. 5 Utah Lake monograph. \$8.
- No. 6 The bark and ambrosia beetles of North and Central America (Coleoptera: Scolytidae), a taxonomic monograph. \$60.
- No. 7 Biology of desert rodents. \$8.
- No. 8 The black-footed ferret. \$10.

TABLE OF CONTENTS

North American stoneflies (Plecoptera): systematics, distribution, and taxonomic references. B. P. Stark, S. W. Szczytko, and R. W. Baumann.	383
Three new records for diatoms from the Great Basin, USA. Samuel R. Rushforth, Lorin E. Squires, and Jeffrey R. Johansen.	398
Movements by small mammals on a radioactive waste disposal area in southeastern Idaho. Craig R. Groves and Barry L. Keller.	404
Roll of three rodents in forest nitrogen fixation in western Oregon: another aspect of mammal-mycorrhizal fungus-tree mutualism. C. Y. Li, Chris Maser, Zane Maser, and Bruce A. Caldwell.	411
Canids from the late Pleistocene of Utah. Michael E. Nelson and James H. Madsen, Jr.	415
Note on food habits of the Screech Owl and the Burrowing Owl of southeastern Oregon. Barbara A. Brown, John O. Whitaker, Thomas W. French, and Chris Maser.	421
Diseases associated with <i>Juniperus osteosperma</i> and a model for predicting their occurrence with environmental site factors. E. D. Bunderson, D. J. Weber, and D. L. Nelson.	427
Status and distribution of the Fish Creek Springs tui chub. Thomas M. Baugh, John W. Pedretti, and James E. Deacon.	441
Ponderosa pine conelet and cone mortality in central Arizona. J. M. Schmid, J. C. Mitchell, and S. A. Mata.	445
Number and condition of seeds in ponderosa pine cones in central Arizona. J. M. Schmid, S. A. Mata, and J. C. Mitchell.	449
New species of <i>Protocedroxylon</i> from the Upper Jurassic of British Columbia, Canada. David A. Medlyn and William D. Tidwell.	452
New taxa and nomenclatural changes in Utah Penstemon (Scrophulariaceae). Elizabeth C. Neese.	459
Relict occurrence of three "American" Scolytidae (Coleoptera) in Asia. Stephen L. Wood and Hui-fen Yin.	461
New genus of Scolytidae (Coleoptera) from Asia. Stephen L. Wood and Fu-sheng Huang.	465
New <i>Pseudoxylechinus</i> (Coleoptera: Scolytidae) from India. Stephen L. Wood.	468
Wildlife distribution and abundance on the Utah Oil Shale Tracts, 1975-1984. C. Val Grant.	469
Comparison of vegetation patterns resulting from bulldozing and two-way chaining on a Utah pinyon-juniper big game range. J. Skousen, J. N. Davis, and Jack D. Brotherson.	508
Vertebrate fauna of the Idaho National Environmental Research Park. Timothy D. Reynolds, John W. Connelly, Douglas K. Halford, and W. John Arthur.	513
Infection of young Douglas-firs and spruces by dwarf mistletoes in the Southwest. Robert L. Mathiasen.	528
Habitat relationships of saltcedar (<i>Tamarix ramosissima</i>) in central Utah. Jack D. Brotherson and Von Winkel.	535
Characteristics of mule deer beds. H. Duane Smith, Mark C. Oveson, and Clyde L. Pritchett.	542
Trumpeter swan (<i>Cygnus buccinator</i>) from the Pleistocene of Utah. Alan Feduccia and Charles C. Oviatt.	547
New species and a new combination of <i>Mentzelia</i> section <i>Bartonia</i> (Loasaceae) from the Colorado Plateau. H. Thompson and B. Prigge.	549
New variety of <i>Mentzelia multicaulis</i> (Loasaceae) from the Book Cliffs of Utah. Kaye H. Thorne and Frank J. Smith.	555
New variety of <i>Mentzelia pumila</i> (Loasaceae) from Utah. Kaye H. Thorne.	557
<i>Agathoxylon lemonii</i> sp. nov., from the Dakota Formation, Utah. William D. Tidwell and Gregory F. Thayne.	559
Grazing and passerine breeding birds in a Great Basin low-shrub desert. Dean E. Medin.	567
Chloroplast ultrastructure in the desert shrub <i>Chrysothamnus nauseosus</i> ssp. <i>Albicaulis</i> . Craig E. Coleman and William R. Andersen.	573
Genetic variation of woodrats (<i>Neotoma cinerea</i>) and deer mice (<i>Peromyscus maniculatus</i>) on montane habitat islands in the Great Basin. William T. Mewaldt and Stephen H. Jenkins.	577
Breeding records for Clark's Grebe in Colorado and Nevada. Richard L. Bunn.	581
