### Recommended Citation

(1989) "End Matter, Vol. 49 No. 3," *Great Basin Naturalist*: Vol. 49 : No. 3 , Article 21.  
Available at: <https://scholarsarchive.byu.edu/gbn/vol49/iss3/21>

This End Matter is brought to you for free and open access by the Western North American Naturalist Publications at BYU ScholarsArchive. It has been accepted for inclusion in *Great Basin Naturalist* by an authorized editor of BYU ScholarsArchive. For more information, please contact [scholarsarchive@byu.edu](mailto:scholarsarchive@byu.edu), [ellen\\_amatangelo@byu.edu](mailto:ellen_amatangelo@byu.edu).

## NOTICE TO CONTRIBUTORS

Manuscripts intended for publication in the *Great Basin Naturalist* or *Great Basin Naturalist Memoirs* must meet the criteria outlined in paragraph one on the inside front cover. The manuscripts should be sent to Stephen L. Wood, Editor, *Great Basin Naturalist*, 290 Life Science Museum, Brigham Young University, Provo, Utah 84602. Three copies of the manuscript are required. They should be typewritten, double-spaced throughout on one side of the paper, with margins of at least one inch on all sides. Use a recent issue of either journal as a format, and the *Council of Biology Editors Style Manual, Fifth Edition* (AIBS 1983) in preparing the manuscript. An abstract, about 3 percent as long as the text, but not exceeding 200 words, written in accordance with *Biological Abstracts* guidelines, should precede the introductory paragraph of each article.

Authors may reduce their typesetting costs substantially by sending a copy of their article on a 5.25-inch floppy disk prepared with WordPerfect software in addition to three copies of the manuscript.

*Illustrations and Tables.* All illustrations and tables should be made with a view toward having them appear within the limits of the printed page. Glossy photoprints of illustrations should accompany the manuscript. Illustrations should be prepared for reduction by the printer to either single-column ( $2\frac{5}{8}$  inches) or double-column ( $5\frac{1}{2}$  inches) width, with the length not exceeding  $7\frac{1}{2}$  inches.

*Costs Borne by Contributor.* Contributors to the *Great Basin Naturalist* should be prepared to donate \$40 per printed page toward publication of their article. No reprints are furnished free of charge. Excessive or complex tables requiring typesetting may be charged to the author at cost. *Great Basin Naturalist Memoirs* costs must be borne in full by the author.

### Reprint Schedule for the *Great Basin Naturalist*

100 copies, minimum cost for 2 pages, \$26.

Each additional 2 pages, \$6.

Each additional 100 copies, \$4 for each 2 pages.

Examples: 300 copies of 10 pages = \$82; 200 copies of 13 pages = \$86.

### *Great Basin Naturalist Memoirs*

No. 1 The birds of Utah. \$10.

No. 2 Intermountain biogeography: a symposium. \$15.

No. 3 The endangered species: a symposium. \$6.

No. 4 Soil-plant-animal relationships bearing on revegetation and land reclamation in Nevada deserts. \$6.

No. 5 Utah Lake monograph. \$8.

No. 6 The bark and ambrosia beetles of North and Central America (Coleoptera: Scolytidae), a taxonomic monograph. \$60.

No. 7 Biology of desert rodents. \$8.

No. 8 The black-footed ferret. \$10.

No. 9 A Utah flora. \$40.

No. 10 A reclassification of the genera of Scolytidae (Coleoptera). \$10.

No. 11 A catalog of Scolytidae and Platypodidae (Coleoptera), part I: bibliography. \$30.

No. 12 Research in the Auchenorrhyncha, Homoptera: a tribute to Paul W. Oman. \$30.

## TABLE OF CONTENTS

Systematics and distribution of the winter stonefly genus <i>Capnia</i> (Plecoptera: Capniidae) in North America. C. Riley Nelson and R. W. Baumann. . . . .	289
Mass mortality of salamanders ( <i>Ambystoma tigrinum</i> ) by bacteria ( <i>Acinetobacter</i> ) in an oligotrophic seepage mountain lake. Kathleen Muriel Worthylake and Peter Hovingh. . . . .	364
Comparison of regression methods for biomass estimation of sagebrush and bunchgrass. Robin J. Tausch. . . . .	373
List of Montana Scolytidae (Coleoptera) and notes on new records. Sandra J. Gast, Malcolm M. Furniss, James B. Johnson, and Michael A. Ivie. . . . .	381
First North American record of <i>Cichlasoma managuense</i> (Pisces: Cichlidae). Paul C. Marsh, Thomas A. Burke, Bruce D. DeMarais, and Michael E. Douglas. . . . .	387
Co-occupancy of a den by a pair of Great Basin black bears. John M. Goodrich and San J. Stiver. . . . .	390
High-elevation records for <i>Neotoma cinerea</i> in the White Mountains, California. Donald K. Grayson and Stephanie D. Livingston. . . . .	392
Opportunistic foraging by the kangaroo rat ( <i>Dipodomys deserti</i> ) Stephens (Rodentia: Heteromyidae). Richard W. Rust. . . . .	396
Additional new species of Teruline leafhoppers with key to species (Cicadellidae: Coelidiinae: Teruliini). M. W. Nielson. . . . .	398
Habitat use by breeding male sage grouse: a management approach. Kevin L. Ellis, Jimmie R. Parrish, Joseph R. Murphy, and Gary H. Richins. . . . .	404
Physiographic characteristics of peregrine falcon nesting habitat along the Colorado River system in Utah. Brandon L. Grebence and Clayton M. White. . . . .	408
Soil-site relationships of white locoweed on the Raft River Mountains. Michael H. Ralphs, Brock Benson, and J. Cameron Loerch. . . . .	419
Role of post-Pleistocene dispersal in determining the modern distribution of Abert's squirrel. Russell Davis and David E. Brown. . . . .	425
Influence of experimental habitat manipulation on a desert rodent population in southern Utah. Jiping Zou, Jerran T. Flinders, Hal. L. Black, Steven G. Whisenant. . . . .	435
Evaluation of wildlife response to a retained mine highwall in south central Wyoming. John P. Ward and Stanley H. Anderson. . . . .	449
Effects of arthropods on root:shoot ratio and biomass production in undisturbed and modified mountain shrub habitats. Tim A. Christiansen, Jeffrey A. Lockwood, and Jeff Powell. . . . .	456
A new perennial species of <i>Gilia</i> (Polemoniaceae) from Utah. Frank J. Smith and Elizabeth C. Neese. . . . .	461
Marmot scats supplement hay pile vegetation as food energy for pikas. James A. Gessaman and Andrew G. Goliszek. . . . .	466
