ANNOUNCEMENTS

Conference on Legal Information and Law Libraries

The China - United States Conference on Legal Information and Law Libraries will be held for May 27-30, 2009 in Beijing, China at the Beijing Friendship Hotel. This conference, initially proposed by a group of members of the American Association of Law Libraries (AALL), is officially co-sponsored by the State Commission on Legal Education of the Ministry of Education, China. AALL is the first American co-sponsor of the conference. Other American and international organizations may join the co-sponsorship soon.

The Conference will provide an opportunity for law librarians and legal information professionals from both countries to share experiences and exchange views in regard to legal information development and law library management. American librarians attending the Conference can share their knowledge and expertise with their Chinese colleagues, including in the area of organizing and sustaining a vibrant, professional association. Additionally, American librarians will be able to meet and connect with Chinese library and information professionals, legal publishers, and government officials responsible for dissemination of legal information. It is expected that the networking and discussions offered by the Conference will serve as catalyst for long-term collaborations between Sino-U.S law libraries and legal information professionals.

The Conference is intended to promote the Sino-U.S. exchanges and cooperation in the area of legal information and law libraries. The goals to be achieved include: to offer an overview of the Chinese and American law-making processes, information resources, and the legal research tools in both countries; to introduce the Chinese law librarians and information policy makers the role of American law libraries, law librarians and professional organizations; to present the state of online library systems; and to promote the opportunities for Chinese and American law libraries and law librarians to develop exchange and cooperative in education, resource sharing, and other areas of mutual interest.
