Binghamton University, SUNY (2019 Public Services Form): The number of the ref. transactions only indicate one-on-one consultation

British Columbia (2019 Public Services Form): We are unable to extract borrowing numbers for East Asian materials.

California, Berkeley (2019 Public Services Form): Total circulation figure does not include non-CJK charges.

Colorado, Boulder (2019 Public Services Form): ILL data is not available

Columbia, Starr East Asian (2019 Public Services Form): Inter-Library Loan numbers include ILL and Borrow Direct transactions. Numbers for unfilled Borrow Direct lending requests are not available.

Hawaii (2019 Public Services Form): Our lending fill rate is low due to several factors -- largest number (463 cancelled requests) fall under lacking a volume/year of a journal or that our subscription ends before or starts after the requested article (our specific volume/year holdings do not show up in OCLC). The others are divided among the usual cancellations for ILL: non-circulating, not on shelf, checked out, exceeds the cost that the borrowing library can pay, on order, and some are that we don't own the title (probably libraries taking a chance in case we have something).

Kansas (2019 Public Services Form): ILL lending and borrowing unfilled (#06 and #08) were not available.

Library of Congress (2019 Public Services Form): complete

Maryland (2019 Public Services Form): Includes CJK DVD circulations.

Northwestern (2019 Public Services Form): Unable to identify East Asian materials from ILL totals.

Ohio State (2019 Public Services Form): The number of presentations, participants and transactions is an estimate based on sampling.

The number of total circulations for the past 12 months is also an estimate that was calculated by finding the average number of circulations per 12-month period, from an aggregate number of circulations on record for 2016-2020, which is currently 52,421.

Princeton (2019 Public Services Form): ILL, BD

Virginia (2019 Public Services Form): We don't count day to day reference transactions. The number reflects the data recorded on LibInsight.

Washington, St. Louis (2019 Public Services Form): No ILL request fulfillment April-June, 2018

California, San Diego (2019 Electronic Books Form): DDA and Purchased Titles cataloged and added for Apabi, Airiti, SuperStar, and Maruzen are not from the import list but entered manual

Ohio State (2019 Electronic Books Form): The actual number of new (added) e-books in non-CJK for the past year was 1,493. However, I added a different number (21,470) that would allow us to update (amend) the total number of non-CJK books at our institution (currently calculated at 22,375). This year the methodology changed for assessing this number, which resulted in a much higher number than in the past. In the past, we believe the number being reported was for non-CJK e-books in CJK Studies. This year, we are reporting all non-CJK e-books for the entire OSU Libraries collection, whether related to CJK Studies or not. Therefore it is much larger than what has been previously reported.

Washington (2019 Electronic Books Form): Expenditures are treated as part of the serials or monograph expenditures, instead of being kept separately

California, San Diego (2019 Electronic Books Form): DDA and Purchased Titles cataloged and added for Apabi, Airiti, SuperStar, and Maruzen are not from the import list but entered manual

Ohio State (2019 Electronic Books Form): The actual number of new (added) e-books in non-CJK for the past year was 1,493. However, I added a different number (21,470) that would allow us to update (amend) the total number of non-CJK books at our institution (currently calculated at 22,375). This year the methodology changed for assessing this number, which resulted in a much higher number than in the past. In the past, we believe the number being reported was for non-CJK e-books in CJK Studies. This year, we are reporting all non-CJK e-books for the entire OSU Libraries collection, whether related to CJK Studies or not. Therefore it is much larger than what has been previously reported.

Washington (2019 Electronic Books Form): Expenditures are treated as part of the serials or monograph expenditures, instead of being kept separately
