The *BYU Studies* Cumulative Index 1959–1991

The following indexes list all articles, reviews, poems, works of art, and other materials published in *BYU Studies* from its beginning in 1959 through and including this fourth issue of volume 31 in 1991.

The Author Index lists each item alphabetically by author. Co-authored articles are listed under the first author. Book reviews are listed under the name of the reviewer. At the end of each entry in the Author Index, an item's category listings are shown in brackets.

The Title Index lists all items alphabetically by title, disregarding the words *A*, *An*, and *The* at the beginning of titles. Works of art are not listed in the Title Index; they can be readily found in the Category Index. Book reviews are listed in a separate index following the Category Index.

The Book Review Index consists of two parts. The first lists book reviews alphabetically by the author of the book. The second lists reviews alphabetically by the title of the book (book reviews are indexed by the name of the reviewer in the Author Index).

The Category Index groups all published materials into categories and lists them alphabetically by author under each category heading. Each item is listed in one to three categories.

The Subject Index lists the people, places, events, themes, and topics discussed in *BYU Studies*. An item is included in this index when there is a paragraph or more about that item in the original article or review. The subject of a poem is listed if the poem deals with church history or doctrine. Themes of series of poems are also included.

All indexes are alphabetized letter by letter according to the rules in the *Chicago Manual of Style*.
