For Minerva Teichert there were only two reasons to paint—“either a thing must be very beautiful, or, it must be an important story.” She loved the truths of the Book of Mormon; she felt determined to tell this important story through her masterful art.

Collected here is her complete series of Book of Mormon murals—each one a story by itself. From the sons of Lehi presenting their wealth to Laban in exchange for the brass plates to Christ appearing at the temple in Bountiful, Minerva Teichert captured the teachings and drama of the Book of Mormon.

One hundred color plates, assembled here for the first time, tell the story Teichert felt inspired to share through her painting. An overview of Teichert’s mural techniques and personal motivations complements the paintings and sketches. Scriptures, captions, and excerpts from her letters enrich the presentation of these works throughout the book.
Using Ephesians 6:13–17, Arthur Henry King persuasively argues that genuine education begins in homes where parents read the scriptures to and with their children. The language and morality of scripture then form the foundation for learning and judging every activity, art, and discipline.

This book compels thoughtful reflection and helps people put first things first. Professor King, poet, literary critic, and religious teacher, has profoundly influenced the lives of a strong cadre of intellectual followers. Expanding on the previously published Abundance of the Heart, this book brings together twenty-four of his best essays and speeches.

You are not learning material here. You are learning to be, you are letting yourself be changed in 'the inner man.'

Dale Wood is one of the most prominent composers of church music in the twentieth century. His name is also widely associated with his distinguished work as editor, author, organist, and conductor.

*Songs of the Heart* contains nine pieces selected and newly adapted for LDS use from Wood’s publications issued by The Sacred Music Press. Of these, six are found in the Latter-day Saint hymnal; *Beautiful Savior* is contained in the Latter-day Saint children’s songbook; and two hymn tunes are traditionally associated with Psalm 23.

The arrangements of these hymns that are cherished throughout the Christian world will set the tone for worshippers who are seeking the spirit of the Savior. The music and the beloved texts deliver a testimony that is often more powerful than the spoken word.
