BYU ScholarsArchive Citation

This Book Review is brought to you for free and open access by the All Journals at BYU ScholarsArchive. It has been accepted for inclusion in Children's Book and Media Review by an authorized editor of BYU ScholarsArchive. For more information, please contact scholarsarchive@byu.edu, ellen_amatangelo@byu.edu.
Jump on the Magic School Bus and come explore the rainforest! Here you’ll find all sorts of trees, vines, and other plants, which are home to thousands of species of mesmerizing bugs and animals. You’ll also learn more about apes, monkeys, birds, frogs, tigers, and snakes, and why it’s so important to preserve the rainforests to keep these animals safe.

Like other books in The Magic School Bus Presents series, this educational book uses all the well-known Magic School Bus characters to present a wide range of interesting information in a very appealing format. The book has a consistent color scheme and layout, which includes on every page a title, the main commentary, a “Frizzle Fact,” a short book-report summary, and several fascinating photographs with additional fun facts, all of which is written in very clear and understandable language. The final pages also include some more interesting facts and a helpful “Words to Know” page. This series would be an excellent addition to a classroom library and also a great educational tool to use at home.
