Number of Pages: 30
Interest Level: Toddler, Preschool
Rating: Excellent

Review

On this particular sunny day, a little boy, his mother, and T. rex head to the beach to play in the sand and water. The rules to having a fun day at the beach are laid out simply. Both the little boy and T. rex find ways to play while staying safe and keeping mother on her toes. A few more dinosaurs and friends join along in the adventuring in the water and sand as they learn to share and have a great time.

This book is a simple and quick read. While there are very few words on the pages, the entire pages are full of colorful illustrations that help give the reader more information about this beach adventure day. The author has done a good job at showing what fun can be done while staying safe and playing with friends. Readers of all ages can enjoy reading about how little kids and dinosaurs can play together in the sand.
