Review

In this twist on sleeping beauty the princess snores, and boy does she. The poor mouse who lives below her can never get sleep because she is so loud when she sleeps. He plots to find her prince, but then has to convince the prince to stick around once the snoring starts.

This comical tale is one to be enjoyed by all. The illustrations are quite impressive and the humor will capture any heart, both young and old. Parents and teachers can utilize *Snoring Beauty* to entertain their children and students as well as to teach them that not everything is as it seems.
