Review

Night Owl is a baby owl who can not find his Mommy. He sets out to find her by listening to the sounds in the night. One sound is too short to be her hoot. Another hoot is too high. One hoot is too scary! When he finally hears his Mommy's unique sound, he is happy!

The words in *Night Owl* are written in a way to encourage listening to the sounds words make and how each are different. The book is a sturdy board book with simple but expressive pictures that infants and toddlers will enjoy. Although this book is written as more of a bed time story, it can be read and enjoyed at any time.
