Review

I Love Cats is a cute book explaining what to expect when you own a cat. A reader is taught about teaching a cat to use a litter boxes, how to correctly brush a cat, what a scratch post is, and how often to feed your cat. Included is a list of cat supplies, as well as a glossary of terms to help even the youngest reader appreciate this book.

Photographs of every topic take up every other page of the book adding visual clarity to what the author is teaching about. There is also a lot of color used throughout the book to keep young children interested in the content. The font sizing is big, and only minimal words are used. For parents of children who love cats, this book is perfect!
