Review

Duct Tape Costumes is a fun book for children with a creative streak. It begins with a brief history and description of duct tape and covers the basic safety precautions before jumping in to the many ideas of costumes made with the help of duct tape.

This book gives fun ideas of homemade costumes that use at-home materials such as cardboard, scissors, ruler, markers, and occasional googly eyes. There are pictures of the final product as well as some pictures to help in following the instructions. All elementary children will enjoy these crafts, but children under the age of eight or nine will most likely need help from their parents in following some of the instructions.
