Push the seed to plant it, then wiggle your fingers to make it rain! Rub the sun to make it hotter and shoo away the hungry snail to help your flowers grow. Wish for rain again and then bring back the sun! What beautiful flowers!

This interactive gardening story is perfect for story time and reading to young children. The illustrations focus on what the child is doing in the story and doesn't have any distracting details or backgrounds. There is a ladybug on every page for kids to look for and to find, making this book even more engaging. Plant the Tiny Seed is simple, colorful and fun! The story teaches basic gardening and botanical principles such as how plants start as seeds and grow as they are watered and given sunlight.
