Minnie has a huge order of bows to make before the honey festival and doesn't know how she will get it all done in time. Daisy saves the day with a bow-making robot named Bow-Bot. Minnie and Daisy push the buttons and Bow-Bot is making the bows in no time. However, she soon runs out of ribbon and starts making bows out of anything she can find, like a chair and the curtains! The remote control breaks as they try to turn Bow-Bot off, but Minnie uses her bow grabber to push the OFF button on Bow-Bot. Minnie repairs the remote and Bow-Bot works again!

This story grabs the interest of children quickly and completely. The familiar characters Minnie and Daisy draw the audience in, while the simple plot twists keep the readers on the edge of their seats. The pages of colorful illustrations and large colorful action words inserted into the text appeal to children listening to the story and to emerging readers. Children who love Minnie Mouse will love the bright colors and animated story. The text is easy to read with exciting dialogue that will have children coming back again and again to this Disney book.
