World's Best (and Worst) Animal Jokes really lives up to its name. This joke book is filled with everything animal. There are many different types of jokes, from question-and-answer to knock-knock jokes. There are great, laugh-out-loud jokes, as well as others labeled as “groaner jokes” that are meant to make you sigh and laugh. Each page has several fun jokes that will get the reader thinking about other animal jokes that could be found on the next page. There are many types of animals included, ranging from ocean creatures to cave creatures to mountain creatures. Animal lovers will love laughing at along with this book.

There is a whimsical nature to this book. It has a very inviting cover for all ages. The pages match the feel of the cover, some filled with blue and others that are covered entirely in pictures. There are speech bubbles coming from the animals on every page that add to the silly nature of the book. The author has also gotten creative with adding items to the animals like glasses, hats, and a stethoscope. Each page has something so different that readers will stay engaged with the book through every page turn. The text is all over the page, but is really easy to follow. Each joke is spaced separately in its own region or box. The book is eye-catching and adds to the humor of the jokes.
