Book Review

Dinosaur Rap

Do you know how to do the dinosaur rap? The stegosaurus struts its stuff while the T-Rex clicks its claws. Then all the dinosaurs join in! Readers follow along as different dinosaurs display their unique dance moves and then help the dinosaurs sing the dinosaur rap.

Dinosaur Rap is the perfect book for children who love rhythm and rhyme and have a special interest in dinosaurs. The book contains not only clever rhymes that describe the dance moves of different dinosaurs, but also information about types of dinosaurs, the age of the dinosaurs, and what happened to the dinosaurs. It comes with a CD/DVD that includes a song version of the dinosaur rap and a video that shows the dinosaurs dancing. The book is playful and fun, but also provides valuable information to children interested in dinosaurs.
