Book Review

Super Structures: Burj Khalifa

Did you know it takes three months to clean all the windows on the Burj Khalifa? The Burj Khalifa is the tallest free-standing structure in the world, and stands at 2,717 feet high! This mega-tall skyscraper towers over the city of Dubai. The book tells you everything you want to know about this massive structure, from its construction and building materials to its current uses.

This book by Julie Murray includes interesting information about the enormous skyscraper Burj Khalifa. Children with an interest in architecture, tall buildings, or the city of Dubai will enjoy the book. The book contains a table of contents, index, and glossary to help young readers navigate the text. This book could be used to teach nonfiction text features. Both young and old readers will enjoy learning about this feat of modern architecture.
