Is there anything more adorable than a tiny, fluffy kitten? Kittens Marmalade, Bubbles, and Sampson are sick and tired of being treated only as cute and adorable kittens. Having received degrees in engineering, electrical engineering, and plumbing, they want to be taken seriously as builders. When they are refused the position of constructing the mayor’s mansion, they take matters into their own paws and construct a mayor’s mansion of their own. They recruit a team entirely made up of kittens and construct a mayor’s mansion the likes of which the city has never seen. When the mayor’s mansion constructed by humans falls apart, the Kitten Construction Company finally gets their opportunity to show what they can do as competent, successful builders.

Kitten Construction Company: Meet the Kittens is a story told in graphic novel format making it clever and entertaining for readers. Author and Illustrator John Patrick Green has worked for several comic books (including Disney Adventures, DC Comics, Marvel, and Nickelodeon) and uses his expertise to create this story. The images are digitally colored, and are vibrant and engaging. The text is simple enough for young readers to understand, but clever in a way that older readers will enjoy as well. Readers that enjoy graphic novels, clever stories, and beautiful illustrations will be highly satisfied with Kitten Construction Company.
