Politics have gone crazy in the past few years, and these animals are here to tell and show you all about it. Cat-ivists hold signs. A hedgehog laments his small hands. A chihuahua with a doughnut pleads for “Equal bites for all.” After pages of paw-litical puns and adorable animal pictures, a wise owl finishes the book off by telling the reader to “stay woke” in civic and political engagement.

Every page of this book has a picture of an animal(s) and a political statement that is often a pun. While the pictures are cute, it isn't really a children's book. Most of the statements require a deep knowledge of politics and/or political quotes from the past half-decade in order to understand them. The book is formatted well with the words in easy-to-read places on or beside the pictures. The words themselves are creative, but it should be noted that many of them are derogatory toward the current president and his politics. Therefore, the reader may enjoy this book more or less depending on his or her political views. With the majority of the pages being about voting and using your voice, however, the overall message is simply to stay aware of and involved in our country's politics.
