As days go by, seasons change. Each season brings new weather. Snow comes in winter, rain in spring. Sun comes in summer, and leaves fall in autumn. Soon days turn into months and months turn into years, and the cycle of seasons starts all over again.

This concise story teaches children about seasons and their associated words in English and Spanish, helping new bilingual readers learn vocabulary. A short list of clothes worn in each season is included at the end of the book. The charming colored pencil illustrations depict children participating in seasonal activities as a year passes by.
