Claire is sure she can convince everyone that leprechauns are real by catching one. Using whatever craft supplies she can find, Claire builds a trap. It's empty the next morning, but there's a note beside it from a leprechaun named Finn, informing her he can't be caught. Claire isn't about to give up, so she and her brother make more traps, hoping they can prove once and for all that leprechauns are real.

With brightly colored illustrations and an exciting, imaginative storyline, this book will hold young readers' attention. Told from Claire's point of view, the story is full of cute sayings and occasional rhymes, making it a fun book to read aloud. There are bonus pages at the end of the book about how to catch a leprechaun, providing a few facts and a five-step plan to make a trap with a list of helpful craft supplies. This book encourages imagination and creativity, effectively inspiring kids to be innovative and resourceful in their play.
