

Laue Sommernacht (Music Recording, Translation)

Lied: Alma Schindler Mahler

Poem: Gustav Falke

English Translation: Emily Holzmer

Mild summer night, no star was in the sky,
In the deep forest we searched for one another deep in the darkness,
And we found each other...found each other in the deep forest,
In the night, the starless night; held each other amazed
In the dark arms of the dark night.
Was not our whole life just groping through the darkness;
Just a search, there in the darkness, love, fell your light;
