

SUPPLEMENTARY MATERIAL 1. Environmental DNA samples collected for detection of *Anodonta nuttalliana*. Pos/Neg refers to whether *A. nuttalliana* DNA was detected in the sample with quantitative PCR. Year of last known record refers to the last known record of *A. nuttalliana* from the entire water body in that county, not the specific locations. Locations of some samples collected on private property in Wyoming are sensitive, and thus the water body name is not given.

Water body	State	County	Basin	Pos/Neg	Collection Date	Township Range and Section	DNA copies/L	Year of last known record
