Microfranchising: A New Tool for Creating Economic Self-Reliance
by Jason S. Fairbourne, p. 18
Help the world's poor to become more economically self-reliant by using these handbooks to teach basic microenterprise principles. The Where There Are No Jobs handbooks are being used in more than a dozen countries, and have helped nearly 1,000 international students experience business success.

We began using the Spanish version of Where There Are No Jobs in 2005. Some of our 75 small business owners have already doubled or tripled their businesses.
