This End Matter is brought to you for free and open access by the Western North American Naturalist Publications at BYU ScholarsArchive. It has been accepted for inclusion in Great Basin Naturalist by an authorized editor of BYU ScholarsArchive. For more information, please contact scholarsarchive@byu.edu, ellen_amatangelo@byu.edu.
INFORMATION FOR AUTHORS

The Great Basin Naturalist welcomes previously unpublished manuscripts pertaining to the biological natural history of western North America. Preference will be given to concise manuscripts of up to 12,000 words.

SUBMIT MANUSCRIPTS to James R. Barnes, Editor, Great Basin Naturalist, 290 MLBM, Brigham Young University, Provo, Utah 84602. A cover letter accompanying the manuscript must include a phone number(s) of the author submitting the manuscript; it must also provide information describing the extent to which data, text, or illustrations have been used in other papers or books that are published, in press, submitted, or soon to be submitted elsewhere. Authors should adhere to the following guidelines: manuscripts not so prepared may be returned for revision.

MANUSCRIPT PREPARATION. Consult Vol. 51, No. 2 of this journal for specific instructions on style and format. These instructions, GUIDELINES FOR MANUSCRIPTS SUBMITTED TO THE GREAT BASIN NATURALIST, supply greater detail than those presented here in condensed form. The guidelines are printed at the back of the issue; additional copies are available from the editor upon request. Also, check the most recent issue of the Great Basin Naturalist for changes and refer to the CBE Style Manual, 5th edition (Council of Biology Editors, One Illinois Center, Suite 200, 111 East Wacker Drive, Chicago, IL 60601-4295 USA, phone: (312) 616-0800, fax: (312) 616-0226). $24.00

TYPE AND DOUBLE SPACE all materials, including literature cited, table headings, and figure legends. Avoid hyphenated words at right-hand margins. Underline words to be printed in italics. Use standard bond (22 x 28 cm), leaving 2.5-cm margins on all sides.

SUBMIT 3 COPIES of the manuscript and the original on a 5.25- or 3.5-inch disk utilizing WordPerfect 4.2 or above. Number all pages and assemble each copy separately: title page, abstract and key words, text, acknowledgments, literature cited, appendices, tables, figure legends, figures.

TITLE PAGE includes an informative title no longer than 15 words, names and addresses of authors; a running head of fewer than 40 letters and spaces, footnotes to indicate change of address and author to whom correspondence should be addressed if other than the first author.

ABSTRACT states the purpose, methods, results, and conclusions of the research. It is followed by 6–12 key words, listed in order of decreasing importance, to be used for indexing.

TEXT has centered main headings printed in all capital letters; second-level headings are centered in upper- and lowercase letters; third-level headings begin paragraphs.

VOUCHER SPECIMENS. Authors are encouraged to designate, properly prepare, label, and deposit high-quality voucher specimens and cultures documenting their research in an established permanent collection, and to cite the repository in publication.

REFERENCES IN THE TEXT are cited by author and date; e.g., Martin (1959) or Martin (1959). Multiple citations should be separated by commas and listed in chronological order. Use "et al." after name of first author for citations having more than two authors.

ACKNOWLEDGMENTS under a centered main heading, include special publication numbers when appropriate.

LITERATURE CITED, also under a centered main heading, lists references alphabetically in the following formats.

TABLES are double spaced on separate sheets and designed to fit the width of either a single column or a page. Use lowercase letters to indicate footnotes.

PHOTOCOPIES OF FIGURES are submitted initially with the manuscript. Editors may suggest changes. Lettering on figures should be large enough to withstand reduction to one- or two-column width. Originals must be no larger than 22 x 28 cm.

NOTES. If the manuscript would be more appropriate as a short communication or note, follow the above instructions but do not include an abstract.

A CHARGE of $45 per page is made for articles published. The rate for subscribers will be $40 per page. However, manuscripts with complex tables and/or numerous halftones will be assessed an additional charge. Reprints may be purchased at the time of publication an order form is sent with the proofs.

FINAL CHECK:

• Cover letter explains any duplication of information and provides phone numbers.
• 3 copies of the manuscript and WordPerfect disk.
• Conformity with instructions.
• Photocopies of illustrations.
# GREAT BASIN NATURALIST
Vol. 53, No. 4, December 1993

## CONTENTS

### Articles

Seasonal trends and colonization patterns of macroinvertebrate assemblages in two streams with contrasting flow regimes ..... Christopher T. Robinson, G. Wayne Minshall, and Lynn Van Every 321

Nonstructural carbohydrate and element pools in globemallow (*Sphaeralcea*): defoliation effects and seasonal trends. ............... Bruce M. Pendery, Melvin D. Rumbaugh, H. F. Mayland, and Philip A. Harrison 332

Temporal and spatial patterns of small mammal density and species composition on a radioactive waste disposal area: the role of edge habitat ........ John D. Boone and Barry L. Keller 341

Phytoplankton in a high-elevation lake, Colorado Front Range: application to lake acidification .................. Dale Toetz and John Windell 350

Effects of soil structure on burrow characteristics of five small mammal species ................. John W. Laundré and Timothy D. Reynolds 358

Morphology and growth variation of *Agropyron smithii* Rydb. (western wheatgrass) at different salinity levels .... Rengen Ueng and Ivo E. Lindauer 367

Comparison between plant species in bushy-tailed woodrat middens and in the habitat .................. Barbara A. Frase and Wendy E. Sera 373

Long-term fluctuations of an isolated population of the Pacific chorus frog (*Pseudacris regilla*) in northwestern Nevada ....... Norman H. Weitzel and Howard R. Panik 379

Association of black-tailed prairie dog colonies with cattle point attractants in the Northern Great Plains .... Daniel S. Licht and Kenneth D. Sanchez 385

Human fatalities caused by venomous animals in Utah, 1900–90 ..................... Richard C. Straight and James L. Glenn 390

Some new records of Naididae and Tubificidae (Annelida: Oligochaeta) from Washington .................. Douglas R. Spencer and Robert E. Wiseman 395

### Notes

Distribution of the southwestern toad (*Bufo microscaphus*) in Arizona ........ Brian K. Sullivan 402

Double mound of the harvester ant *Pogonomyrmex occidentalis* (Hymenoptera: Formicidae, Myrmicinae) ........... William H. Clark 407

Autumn-winter habitat use of Lesser Prairie-Chickens (*Tympanuchus pallidicinctus*, Tetraonidae) ............. Terry Z. Riley, Charles A. Davis, and Randall A. Smith 409
