II. Functions of Subcommittees and Task Forces

The following statement outlining the functions and responsibilities of the Subcommittee on Technical Processing has been prepared by its Chairperson, Mr. Thomas H. Lee.

1. To study problems and recommend improvements in the descriptive cataloging of materials issued in East Asian languages (i.e., Chinese, Japanese, and Korean).

2. To study problems and recommend improvements in classification systems and subject headings as they relate to East Asian publications.

3. To study problems and recommend improvements in romanization tables or systems for East Asian languages.

4. To communicate committee findings to the East Asian library community through committee reports, articles, etc., in professional journals such as the CEAL Bulletin or any other channels that seem feasible or desirable.

5. To communicate and coordinate with other professional organizations, national or international, on problems of East Asian cataloging.
