Introducing the CJK350 service, OCLC's new automated Chinese-Japanese-Korean (CJK) cataloging system. With the CJK350 service, you get state-of-the-art technology at a price you can afford. And, catalog cards that are a beauty to behold!

**State-of-the-art cataloging**
The Online Cataloging and Card Production packages offer you the ability to process Chinese, Japanese, and Korean language materials plus the advantages of access to the OCLC Online Union Catalog, the world's largest bibliographic database.

And, with the CJK350 service, high quality card sets in Chinese, Japanese and Korean characters can be printed in your office on the same day the materials are cataloged.

**State-of-the-art word processing**
The OCLC CJK350 Word Processing package combines three powerful word processors into one. You benefit from special features such as user-defined new character generation, variable font size, and two-direction printing (horizontal or vertical).

**Multiple input methods**
The CJK350 service offers you multiple input methods, including the Tsang-chieh Character Composition Method, Wade-Giles, Pinyin, the modified Hepburn, and McCune-Reischauer romanization schemes—all operated on the standard OCLC English-language keyboard.

**Ongoing support from OCLC**
The OCLC CJK350 service is easy-to-use and requires minimal training, especially if you're already familiar with OCLC MARC formats. All three packages operate on the versatile CJK350 Workstation that has all the functions of an IBM PC-based M300 Workstation. And, if you already have an M300, it can be upgraded to a CJK350 Workstation.

But best of all, because the CJK350 service is from OCLC, you know it is backed by our ongoing service and support.

**The OCLC CJK350 service**—We think it's the answer to your East Asian language processing needs. And, we think you'll agree.

For more information on how you can put the CJK350 service to work for you, contact Jay Lee, OCLC CJK Marketing Specialist, at our toll-free number.

a complete course on how not to forget
the meaning and writing of Japanese characters

REMEMBERING
THE KANJI

by James W. Heisig

"The aim of this book is to provide the student of Japanese
with a simple method for correlating the writing and the
meaning of Japanese characters in such a way as to make
them both easy to remember. It is intended not only for the
beginner, but also for the more advanced student looking
for some relief to the constant frustration of forgetting how
to write the kanji and some way to systematize what he or
she already knows. By showing how to break down the
complexities of the Japanese writing system into its basic
elements and suggesting ways to reconstruct meanings from
those elements, the method offers a new perspective from
which to learn the kanji..."

—from the Introduction

How would you like to be able to learn 25...50...
even 100 kanji per day — and remember them?
This book will teach you how!

500 pages / 6×8-1/2"/paperback/ISBN 0-87040-739-2 US$32.95
