This book combines the strengths of the awarding-winning author and illustrator to create a reverent, mystical feel on the first page. With an illustration of a single candle flickering in the darkness we read, "Hush! This is a holy place." Through different poems, Sacred Places shows how different places mean different things to different people. Still, they all have a unifying theme of sanctity, respect, and reverence for what other people view as holy.

David Shannon is extremely versatile and shows it with his paintings: from Mecca to Stonehenge, from a Shinto Shrine to an aboriginal holy rock formation the poems and illustrations work together to capture the feel of Sacred Places all over the world.
