NOTICE TO CONTRIBUTORS

Original manuscripts in English pertaining to the biological natural history of western North America and intended for publication in the *Great Basin Naturalist* should be directed to Brigham Young University, Stephen L. Wood, Editor, *Great Basin Naturalist*, Provo, Utah 84602. Those intended for the *Great Basin Naturalist Memoirs* should be similarly directed, but these manuscripts are not encumbered by a geographical restriction.

**Manuscripts.** Two copies of manuscripts are required. They should be typewritten, double spaced throughout on one side of the paper, with margins of at least one inch on all sides. Use a recent issue of either journal as a format, and the *Council of Biology Editors Style Manual, Third Edition* (AIBS 1972) in preparing the manuscript. An abstract, about 3 percent as long as the text, but not exceeding 200 words, written in accordance with Biological Abstracts guidelines, should precede the introductory paragraph of each article. Authors may recommend one or two reviewers for their article. All manuscripts receive a critical peer review by specialists in the subject area of the manuscript under consideration.

Manuscripts that are accepted and that are less than 100 printed pages in length will automatically be assigned to the *Great Basin Naturalist*. Those manuscripts larger than 100 printed pages in length will be considered for the *Memoirs* series.

**Illustrations and Tables.** All illustrations and tables should be made with a view toward having them appear within the limits of the printed page. Illustrations that form part of an article should accompany the manuscript. Illustrations should be prepared for reduction by the printer to either a single-column (2½ inches) or double-column (5½ inches) width, with the length not exceeding 7¼ inches.

**Costs Borne by Contributor.** Contributors to the *Great Basin Naturalist* should be prepared to donate from $10 to $30 per printed page toward publication of their article (in addition to reprint costs outlined in the schedule below). Authors publishing in the *Great Basin Naturalist Memoirs* may be expected to contribute $35 per printed page in addition to the cost of the printed copies they purchase. No printed copies are furnished free of charge. A price list for reprints and an order form are sent with the galley proof to contributors.

No. 3 The endangered species: a symposium. $6.
TABLE OF CONTENTS

Feeding ecology of *Gila boraxobius* (Osteichthyes: Cyprinidae) endemic to a thermal lake in southeastern Oregon. Jack E. Williams and Cynthia D. Williams ........................................ 101

First record of the pallid bat (*Antrozous pallidus*) from Montana. Jeff Shryer and Dennis L. Flath ................................................................. 115

A *Chinacanthium* spider bite. Dorald M. Allred ............................................. 116

Identity of narrow-leaved *Chrysothamnus ciscidiflorus* (Asteraceae). Loran C. Anderson ................................................................. 117

Ribulose diphosphate carboxylase activities in cold-resistant common mallow, *Malva neglecta* Wallr. and a cold-sensitive tomato, *Lycopersicon esculentum* L., Ace 33 var. William R. Andersen and Jack D. Brotherson ............................................ 121

Recovery of Gambel oak after fire in central Utah. L. M. Kunzler and K. T. Harper .. 127

Relationships among total dissolved solids, conductivity, and osmosity for five *Artemia* habitats (Anostraca: Artemiidae). Nicholas C. Collins and Gray Stirling 131

Spawning of the least chub (*lotichthys phlegethonitis*). Thomas M. Baugh ................. 139

The genus *Eriogonum* Michx. (Polygonaceae) and Michel Gandoger. James L. Reveal 143

Parasites from two species of suckers (Catostomidae) from southern Utah. J. Craig Brienhoit and Richard A. Heckmann ................................................. 149

Soil water withdrawal and root distribution under grubbed, sprayed, and undisturbed big sagebrush vegetation. David L. Sturges ........................................... 157

Swarming of the western harvester ant, *Pogonomyrmex occidentalis*. Dorald M. Allred ................................................................. 165

Relationship between environmental and vegetational parameters for understory and open-area communities. William E. Evenson, Jack D. Brotherson, and Richard B. Wilcox ............................................. 167

Seasonal activity pattern of Columbian ground squirrels in the Idaho primitive area. Charles L. Elliott and Jerran T. Flinders ........................................... 175

Habitat and plant distributions in hanging gardens of the narrows, Zion National Park, Utah. George P. Malanson ................................................................. 178

Short-term effects of logging on red-backed voles and deer mice. Thomas M. Campbell III and Tim W. Clark ................................................................. 183

Terminal bud formation in limber pine. Ronald M. Lanier and James A. Bryan ............. 190

Stinger utilization and predation in the scorpion *Paruroctonus boreus*. Bruce S. Cushing and Anne Matherne ................................................................. 193
