NOTICE TO CONTRIBUTORS

Manuscripts intended for publication in the Great Basin Naturalist or Great Basin Naturalist Memoirs must meet the criteria outlined in paragraph one on the inside front cover. They should be directed to Brigham Young University, Stephen L. Wood, Editor, Great Basin Naturalist, 290 Life Science Museum, Provo, Utah 84602. Three copies of the manuscript are required. They should be typewritten, double spaced throughout on one side of the paper, with margins of at least one inch on all sides. Use a recent issue of either journal as a format, and the Council of Biology Editors Style Manual, Fourth Edition (AIBS' 1978) in preparing the manuscript. An abstract, about 3 percent as long as the text, but not exceeding 200 words, written in accordance with Biological Abstracts guidelines, should precede the introductory paragraph of each article.

All manuscripts receive a critical peer review by specialists in the subject area of the manuscript under consideration. Authors may recommend one or two reviewers for their article.

Accepted manuscripts less than 100 printed pages in length will automatically be assigned to the Great Basin Naturalist. Those larger than 100 printed pages will be considered for the Memoirs series.

Illustrations and Tables. All illustrations and tables should be made with a view toward having them appear within the limits of the printed page. The original illustrations or glossy photocopies of them should accompany the manuscript. Illustrations should be prepared for reduction by the printer to either single-column (2½ inches) or double-column (5½ inches) width, with the length not exceeding 7½ inches.

Costs Borne by Contributor. Contributors to the Great Basin Naturalist should be prepared to donate from $10 to $40 per printed page toward publication of their article (in addition to reprint costs). Excessive or complex tables requiring typesetting may be charged to the author at cost. Authors publishing in the Great Basin Naturalist Memoirs may be expected to contribute $40 per printed page in addition to the cost of the printed copies they purchase. No reprints are furnished free of charge.

Reprint Schedule for the Great Basin Naturalist

100 copies, minimum cost for 2 pages, $26.
Each additional 2 pages, $6.
Each additional 100 copies, $4 for each 2 pages.
Examples: 300 copies of 10 pages = $82; 200 copies of 13 pages = $86.

Great Basin Naturalist Memoirs

No. 3 The endangered species: a symposium. $6.
No. 4 Soil-plant-animal relationships bearing on revegetation and land reclamation in Nevada deserts. $6.
No. 5 Utah Lake monograph. $8.
No. 6 The bark and ambrosia beetles of North and Central America (Coleoptera: Scolytidae), a taxonomic monograph. $60.
No. 7 Biology of desert rodents. $8.
**TABLE OF CONTENTS**

Cryptogamic soil crusts: seasonal variation in algal populations in the Tintic Mountains, Juab County, Utah. Jeffrey R. Johansen and Samuel R. Rushforth .......................... 14

Aquatic parameters and life history observations of the Great Basin spadefoot toad in Utah. Peter Hovingh, Bob Benton, and Dave Bornholdt ............................. 22

New species of Astragalus (Leguminosae) from Mesa County, Colorado. Stanley L. Welsh .................................................. 31

A fourth species of Oreoxis (Umbelliferae). Stanley L. Welsh and Sherel Goodrich .... 34

Insect communities and faunas of a Rocky Mountain subalpine sere. David J. Schimel and James A. MacMahon .................................................. 37

Nutrients in Carex exarata sod and gravel in Sequoia National Park, California. Raymond D. Ratliff ............................................... 61

Mites (excluding chiggers) of mammals of Oregon. John O. Whitaker, Jr., and Chris Maser .................................................................................. 67

Food of cougars in the Cascade Range of Oregon. Dale E. Toweill and Chris Maser ... 77

Factors influencing nesting success of burrowing owls in southeastern Idaho. Richard S. Gleason and Donald R. Johnson ........................................................................ 81

Note on the diet of long-billed Curlew chicks in western Idaho. Roland L. Redmond and Donald A. Jenni .................................................. 85

Tundra vegetation of three cirque basins in the northern San Juan Mountains, Colorado. Mary Lou Rottman and Emily L. Hartman .................................................. 87

Use of biomass predicted by regression from cover estimates to compare vegetational similarity of sagebrush-grass sites. L. David Humphrey ........................................... 94

Understory response to tree harvesting of singleleaf pinyon and Utah juniper. Richard L. Everett and Steven H. Sharrow .................................................. 105

Aquatic birds of the White River, Uintah County, Utah. Benjamin B. Steele and Stephen B. Vander Wall ........................................................................... 113

Patterns of macroinvertebrate colonization in an intermittent Rocky Mountain stream in Utah. J Vann McArthur and James R. Barnes ........................................ 117

Ecological investigation of a suspected spawning site of Colorado squawfish on the Yampa River, Utah. Vincent A. Lamarra, Marianne C. Lamarra, and John G. Carter ........................................................................... 127

Differential effects of cattle and sheep grazing on high mountain meadows in the Strawberry Valley of central Utah. J. B. Shupe and Jack D. Brotherson .......... 141

Unusual social feeding and soaring by the Common Raven (Corvus corax). Clayton M. White and Merle Tanner-White .................................................. 150

Three additional cases of predation by magpies on small mammals. Kerry P. Reese ... 152
