This End Matter is brought to you for free and open access by the Western North American Naturalist Publications at BYU ScholarsArchive. It has been accepted for inclusion in Great Basin Naturalist by an authorized editor of BYU ScholarsArchive. For more information, please contact scholarsarchive@byu.edu, ellen_amatangelo@byu.edu.
NOTICE TO CONTRIBUTORS

Manuscripts intended for publication in the Great Basin Naturalist or Great Basin Naturalist Memoirs must meet the criteria outlined in paragraph one on the inside front cover. The manuscripts should be sent to Stephen L. Wood, Editor, Great Basin Naturalist, 290 Life Science Museum, Brigham Young University, Provo, Utah 84602. Three copies of the manuscript are required. They should be typewritten, double-spaced throughout on one side of the paper, with margins of at least one inch on all sides. Use a recent issue of either journal as a format, and the Council of Biology Editors Style Manual, Fifth Edition (AIBS 1983) in preparing the manuscript. An abstract, about 3 percent as long as the text, but not exceeding 200 words, written in accordance with Biological Abstracts guidelines, should precede the introductory paragraph of each article.

Authors may reduce their typesetting costs substantially by sending a copy of their article on a 5.25-inch floppy disk prepared with WordPerfect software in addition to three copies of the manuscript.

Illustrations and Tables. All illustrations and tables should be made with a view toward having them appear within the limits of the printed page. Glossy photoprints of illustrations should accompany the manuscript. Illustrations should be prepared for reduction by the printer to either single-column (2 1/4 inches) or double-column (5 1/2 inches) width, with the length not exceeding 7 1/4 inches.

Costs Borne by Contributor. Contributors to the Great Basin Naturalist should be prepared to donate $40 per printed page toward publication of their article. No reprints are furnished free of charge. Excessive or complex tables requiring typesetting may be charged to the author at cost. Great Basin Naturalist Memoirs costs must be borne in full by the author.

Reprint Schedule for the Great Basin Naturalist

100 copies, minimum cost for 2 pages, $26.
Each additional 2 pages, $6.
Each additional 100 copies, $4 for each 2 pages.
Examples: 300 copies of 10 pages = $82; 200 copies of 13 pages = $86.

Great Basin Naturalist Memoirs

No. 3 The endangered species: a symposium. $6.
No. 4 Soil-plant-animal relationships bearing on revegetation and land reclamation in Nevada deserts. $6.
No. 5 Utah Lake monograph. $8.
No. 6 The bark and ambrosia beetles of North and Central America (Coleoptera: Scolytidae), a taxonomic monograph. $60.
No. 7 Biology of desert rodents. $8.
No. 8 The black-footed ferret. $10.
No. 9 A Utah flora. By Stanley L. Welsh $40.
No. 10 A reclassification of the genera of Scolytidae (Coleoptera). By Stephen L. Wood. $10.
### TABLE OF CONTENTS

- Records of exotic fishes from Idaho and Wyoming. Walter R. Courtenay, Jr., C. Richard Robins, Reeve M. Bailey, and James E. Deacon. ................................................. 523
- Revision of *Sahniocarpus harrisi* Chitaley & Patil based on new specimens from the Deccan Intertrappean Beds of India. E. M. V. Nambudiri, William D. Tidwell, and Shya Chitaley................................................. 527
- Maternal care of neonates in the prairie skink, *Eumeces septentrionalis*. Louis A. Somma................................................................. 536
- Thermal tolerances and preferences of fishes of the Virgin River system (Utah, Arizona, Nevada). James E. Deacon, Paul B. Schumann, and Edward L. Stuenkel. .................................................. 538
- Six new Scolytidae (Coleoptera) from Mexico. Stephen L. Wood................................................................. 547
- Observations on the ecology and trophic status of Lake Tahoe (Nevada and California, USA) based on the algae from three independent surveys (1965–1985). Sam L. VanLandingham.................................................. 562
- Zonation patterns in the vascular plant communities of Benton Hot Springs, Mono County, California. Jack D. Brotherson and Samuel D. Rushforth.................................................. 583
- New brachiosaur material from the Late Jurassic of Utah and Colorado. James A. Jensen................................................................. 592
- Small-stone content of Mima mounds of the Columbia Plateau and Rocky Mountain regions: implications for mound origin. George W. Cox, Christopher G. Gakahu, and Douglas W. Allen.................................................. 609
- Type specimens of recent mammals in the Utah Museum of Natural History, University of Utah. Eric A. Rickart................................................................. 620
- Avian use of scoria rock outcrops. Mark A. Rumble................................................................. 625
- Colorado ground beetles (Coleoptera: Carabidae) from the Rotger Collection, University of Colorado Museum. Scott A. Elias................................................................. 631
- Winter habitat-use patterns of elk, mule deer, and moose in southwestern Wyoming. Olin O. Oedekoven and Fredrick G. Lindzey.................................................. 638
- Effects of forest fuel smoke on dwarf mistletoe seed germination. G. Thomas Zimmerman and Richard D. Laven................................................................. 652
- Index................................................................. 661
