This End Matter is brought to you for free and open access by the Western North American Naturalist Publications at BYU ScholarsArchive. It has been accepted for inclusion in Great Basin Naturalist by an authorized editor of BYU ScholarsArchive. For more information, please contact scholarsarchive@byu.edu, ellen amatangelo@byu.edu.
NOTICE TO CONTRIBUTORS

Manuscripts intended for publication in the Great Basin Naturalist or Great Basin Naturalist Memoirs must meet the criteria outlined in paragraph one on the inside front cover. The manuscripts should be sent to Stephen L. Wood, Editor, Great Basin Naturalist, 290 Life Science Museum, Brigham Young University, Provo, Utah 84602. Three copies of the manuscript are required. They should be typewritten, double-spaced throughout on one side of the paper, with margins of at least one inch on all sides. Use a recent issue of either journal as a format, and the Council of Biology Editors Style Manual, Fifth Edition (AIBS 1983) in preparing the manuscript. An abstract, about 3 percent as long as the text, but not exceeding 200 words, written in accordance with Biological Abstracts guidelines, should precede the introductory paragraph of each article.

Authors may reduce their typesetting costs substantially by sending a copy of their article on a 5.25-inch floppy disk prepared with WordPerfect software in addition to three copies of the manuscript.

Illustrations and Tables. All illustrations and tables should be made with a view toward having them appear within the limits of the printed page. Glossy photoprints of illustrations should accompany the manuscript. Illustrations should be prepared for reduction by the printer to either single-column (2.5 inches) or double-column (5 inches) width, with the length not exceeding 7.5 inches.

Costs Borne by Contributor. Contributors to the Great Basin Naturalist should be prepared to donate $40 per printed page toward publication of their article. No reprints are furnished free of charge. Excessive or complex tables requiring typesetting may be charged to the author at cost. Great Basin Naturalist Memoirs costs must be borne in full by the author.

Reprint Schedule for the Great Basin Naturalist

100 copies, minimum cost for 2 pages, $26.
Each additional 2 pages, $6.
Each additional 100 copies, $4 for each 2 pages.
Examples: 300 copies of 10 pages = $82; 200 copies of 13 pages = $86.

Great Basin Naturalist Memoirs

No. 1 The birds of Utah. $10.
No. 2 Intermountain biogeography: a symposium. $15.
No. 3 The endangered species: a symposium. $6.
No. 4 Soil-plant-animal relationships bearing on revegetation and land reclamation in Nevada deserts. $6.
No. 5 Utah Lake monograph. $8.
No. 6 The bark and ambrosia beetles of North and Central America (Coleoptera: Scolytidae), a taxonomic monograph. $60.
No. 7 Biology of desert rodents. $8.
No. 8 The black-footed ferret. $10.
No. 9 A Utah flora. $40.
No. 10 A reclassification of the genera of Scolytidae (Coleoptera). $10.
No. 11 A catalog of Scolytidae and Platypodidae (Coleoptera), part 1: bibliography. $30.
**TABLE OF CONTENTS**

On the distribution of Utah’s hanging gardens. Stanley L. Welsh ........................................ 1

Changes in mule deer size in Utah. Dennis D. Austin, Robert A. Biggs, Philip J. Urness, David L. Turner, and John F. Kimball .......................................................... 31

Amphibians of western Chihuahua. Wilmer W. Tanner .......................................................... 38

Competition between adult and seedling shrubs of *Ambrosia dumosa* in the Mojave Desert, Nevada. Richard Hunter ................................................................. 79

Aquatic insects in Montezuma Well, Arizona, USA: a travertine spring mound with high alkalinity and dissolved carbon dioxide. Dean W. Blinn and Milton W. Sanderson .......................................................... 85

A new *Haliplus* from Warm Springs, Nevada (Coleoptera: Haliplidae). Samuel A. Wells ................................................................. 89

On the genus *Paracarinolidia* (Cicadellidae: Coelidiinae: Teruliini). M. W. Nielson .... 92

Two genera and two new species of Teruline leafhoppers (Hemiptera: Cicadellidae: Coelidiinae). M. W. Nielson ................................................................. 96

Size and overlap of Townsend ground squirrel home ranges. Nicholas C. Nydegger and Donald R. Johnson ................................................................. 108

*Pisolithus tinctorius*, a Gasteromycete, associated with Jeffrey and Sierra lodgepole pines on acid mine spoils in the Sierra Nevada. R. F. Walker ......................................................... 111

Spatial and temporal variability in perennial and annual vegetation at Chaco Canyon, New Mexico. Anne C. Cully and Jack F. Cully, Jr. ......................................................... 113

Associations of small mammals occurring in a pluvial lake basin, Ruby Lake, Nevada. Mark A. Ports and Lois K. Ports ................................................................. 123

Utah chub (*Gila atraria*) from the latest Pleistocene Gilbert shoreline, west of Corrine, Utah. Stuart Murchison ................................................................. 131

Mediation of nutrient cycling by arthropods in unmanaged and intensively managed brush habitats. T. A. Christiansen, J. A. Lockwood, and J. Powell ......................................................... 134

Locality, habitat, and elevation records for the desert shrew, *Notiosorex crawfordi*. Russell Davis and Ronnie Sidner ................................................................. 140
